

# PRODUCTS LIST

OMRI has determined the following products are allowed for use in accordance with National Organic Program (NOP) standards, for the use indicated and in keeping with any applicable use restrictions as specified. Producers should consult with their USDA-accredited certifying body before using any new products. Updated **June 9, 2022**.

## COMPANIES

### Complete List

#### 3 Tier Technologies LLC

Daniel J. Burdette  
413 W. 13th St  
Sanford, FL 32771  
US  
P: +18772267498, F: +18775700072  
[dburdette@3tiertech.com](mailto:dburdette@3tiertech.com)  
[www.3tiertech.com](http://www.3tiertech.com)

Crop Products: Humic Acids – alkali extracted

3tier Technologies Huma-Boost (tie-1176)  
3tier Technologies Carboxx Nature's Catalyst (tie-3674)

Crop Products: Microbial Inoculants

3tier Technologies LDM (tie-6222)

Crop Products: Microbial Products

3tier Technologies Huma-Balance XL Soil Conditioner (tie-1175)

#### 3xM Grinding and Compost LLC

Keith Mautz  
59097 Banner Rd.  
Olathe, CO 81425  
United States  
[3xmgrinding@gmail.com](mailto:3xmgrinding@gmail.com)  
[www.3xm.biz](http://www.3xm.biz)

Crop Products: Compost, other (plant and animal materials)

3XM Compost (txm-4887)

#### 4 MY LIFE BIOORGANIC

ROMAN RODRIGUEZ VALDEZ  
CALLE TERCERA #218  
ZONA CENTRO  
ENSENADA, BAJA CALIFORNIA 22800  
MEXICO  
[dr\\_romanrodriguez1956@hotmail.com](mailto:dr_romanrodriguez1956@hotmail.com)

Crop Products: Yucca

OS PLUS ORGANIC Mejorador de Suelos (myl-12718)

#### A&P Inphatec

Anika Kinkhabwala  
1060 E Meadow Circle  
Palo Alto, California 94303  
United States  
P: +16503370349  
[akinkhabwala@inphatec.com](mailto:akinkhabwala@inphatec.com)

Crop Products: Microbial Pesticides

XylPhi-PD™ (opm-10914) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### A1 Organics

Tanner Phelps  
16350 WCR 76  
Eaton, Colorado 80615  
United States  
P: +1970-454-3492  
[tannerphelps@a1organics.com](mailto:tannerphelps@a1organics.com)

◆ This product is allowed with restrictions. See the Categories section for use restrictions.

■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

1 The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

2 The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

4 The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

5 The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

6 The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

7 The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

8 This product contains more than 1,000 MPN/g fecal coliform. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

9 This product contains more than 3 MPN/4g Salmonella. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

10 This ingredient or processing aid is not certified organic. The operation supplying this input material may be exempt from certification under §205.101. Agricultural ingredients in this product shall not be labeled as organic when used in further processed products unless the ingredient or processing aid is certified by a USDA accredited certifier.

## Livestock Products: Diatomaceous Earth

DE Diatomaceous Earth Food Grade (abw-12383) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

## ABS Global

Bill Meulemans  
1525 River Rd  
Deforest, Wisconsin 53532  
USA  
[bill.meulemans@genusplc.com](mailto:bill.meulemans@genusplc.com)  
[www.absglobal.com](http://www.absglobal.com)

## Livestock Products: Acid Activators for Sodium Chlorite, Acidified

ABS Encore Pre/Post Sanitizing Teat Dip (abw-12621) 1

Must only be used for the generation of acidified sodium chlorite. Use of resulting acidified sodium chlorite must comply with 205.603(a)(28) or 205.603(b)(9).

## Livestock Products: Sodium Chlorite, Acidified

ABS Encore Activator Teat Dip (abw-12814) 1

For use as a livestock teat dip.

## Absorbent Products Ltd.

Lyndsey Cable  
724 East Sarcee St.  
Kamloops, BC V2H 1E7  
CANADA  
P: +18006670336, P: +12503721600x100, F: +12503723777

[www.absorbentproductsltd.com](http://www.absorbentproductsltd.com)

## Crop Products: Bentonite

Garden Treasure Bentonite (wic-2337)

## Crop Products: Diatomaceous Earth

Last Crawl Grain Insect DEStroyer Insecticide Powder Diatomaceous Earth (wic-5326) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Livestock Products: Diatomaceous Earth

Red Lake Earth Diatomaceous Earth with Calcium Bentonite (wic-9325) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

White Lake Diatomaceous Earth (wic-11033) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

FeedSource Diatomaceous Earth (wic-11115) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Barn Fresh Natural Ammonia Control (wic-8090) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Stall Dry Absorbent & Deodorizer (wic-1412) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Fresh Coop Dust Bath (wic-6488) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

## Livestock Products: Minerals

Z-Lite Feed Additive Premium HSCAS Formula (wic-7850) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

## Livestock Products: Odor Control Products

ABF Activated Barn Fresh Poultry Litter Ammonia Control (wic-3864)

Activated Barn Fresh Fresh Coop Odor Control (wic-6119)

Horse Sense Zeolite Odor Stopper Bedding Refresher Granulation Crystals Natural Zeolite Deodorizer (wic-11696)

Poultry Sense Zeolite Odor Stopper Bedding Refresher Natural Zeolite Deodorizer (wic-11698)

## Processing Products: Diatomaceous Earth

Last Crawl Grain Insect DEStroyer Insecticide Powder (wic-4455) 1

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Last Crawl Insect DEStroyer Insecticide Powder Diatomaceous Earth (wic-5327) 1

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Last Crawl Insecticide Powder Insect DEStroyer for Bedbugs & Pet Bedding (wic-6453) 1

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

## Acadian Seaplants Limited

Betsabe Ortiz  
30 Brown Ave.

## Crop Products: Cytokinins

Stimplex Crop Biostimulant (acd-3508) 1  
For use as a plant growth regulator. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Acadian Plant Health Stimplex 0.01 SL Regulador de Crecimiento-Kinetina Citoquinina (acd-5360) 1  
For use as a plant growth regulator. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Growth Regulators for Plants

Stimplex Regulador de Crecimiento Tipo 1 Líquido (acd-10665) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Acadian Plant Health Alga-Plex Regulador de Crecimiento Tipo 1 Líquido (acd-13417) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Kelp Meal

Kelp Meal Fertilizer (acd-0011)

Kelp Meal 1.0-0.15-2.0 Dried Kelp (acd-8467)

## Livestock Products: Aquatic Plant Products

Acadian Seaplants Dried Kelp (acd-9275)

## Livestock Products: Seaweed

Tasco (acd-5738)

## Ace Chemical Products

Jack Stewart  
8415 N. 87th Street

### Crop Products: Coppers, fixed

ACUAGRO AP-Fungi Fungicida Orgánico  
(aez-16381) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Pyrethrum, Soap

ACUAGRO AP-Derribe Insecticida Orgánico  
(aez-16380) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride,  
Fertilizers, Blended with micronutrients,  
Fertilizers, Blended with synthetic  
magnesium sulfate, Manganese  
Products

OG Organics by Advanced Nutrients Sensi  
Cal Mag Xtra Iron, Kelp and other  
Micronutrients (anf-14371) n1

Must not be used as an herbicide, defoliant  
or desiccant. Micronutrient deficiency must  
be documented by soil or tissue testing or  
other documented and verifiable method as  
approved by a certifying agent. May be used  
as a plant or soil amendment if soil  
deficiency of magnesium is documented by  
testing. For use as a foliar spray to treat a  
physiological disorder associated with  
calcium uptake. Must not be used as an  
herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent.

Crop Products: Copper Products,  
Fertilizers, Blended with micronutrients,  
Fertilizers, Blended with sodium nitrate,  
Fertilizers, Blended with synthetic  
magnesium sulfate

OG Organics by Advanced Nutrients Iguana  
Juice Bloom 4-3-6 (anf-13180) n1  
Must not be used as an herbicide, defoliant  
or desiccant. Micronutrient deficiency must  
be documented by soil or tissue testing or  
other documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. May be used  
as a plant or soil amendment if soil  
deficiency of magnesium is documented by  
testing. This product contains highly soluble  
nitrogen and must be applied in a manner  
that does not contribute to the contamination  
of crops, soil or water. Its use must be part of  
an organic system plan that maintains or  
improves the natural resources of the  
operation, including soil and water quality,  
and comply with crop nutrient and soil fertility  
requirements.

OG Organics by Advanced Nutrients Iguana  
Juice Grow 3-1-3 (anf-13182) n1

Must not be used as an herbicide, defoliant  
or desiccant. Micronutrient deficiency must  
be documented by soil or tissue testing or  
other documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. May be used  
as a plant or soil amendment if soil  
deficiency of magnesium is documented by  
testing. This product contains highly soluble  
nitrogen and must be applied in a manner

## Crop Products: Botanical Pesticides

CANELCROP Insecticida-Fungicida-Nematicida Agrícola Concentrado Emulsionable (adh-11574) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ULTRAGARLIC Insecticida Agrícola Concentrado Soluble (adh-11575) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CELAPYR CE Aceite de canela + Piretrinas Insecticida Agrícola Concentrado Emulsionable (adh-13129) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

REGAUCID PRO Quitina + Aminoácidos + Extracto de regaliz + Corteza de sauce blanco FUNGICIDA AGRÍCOLA CONCENTRADO SOLUBLE (adh-14458) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Copper Sulfate

PROTECTOR Sulfato de cobre pentahidratado Fungicida Agrícola Solución Acuosa (adh-8759) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Diatomaceous Earth

SILICE PH Polvo (adh-16259) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Microbial Pesticides

Altiaira SuperVivo Bacillus thuringiensis Var. Kurstaki Insecticida Agrícola Polvo Humectable (avc-11629) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Microbial Products

Altiaira ENERBAC Inoculante Biológico del Suelo (avc-8315)

## Crop Products: Neem and Neem Derivatives

Némesis Plus 3% CE Azadiractina Insecticida-Acaricida / Concentrado Emulsionable (avc-11044) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Altiaira Nemacid 3% CE Azadiractina Insecticida/Concentrado Emulsionable (avc-11424) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Oils

Altiaira Asphix 90 Insecticida Botánico/Concentrado Emulsionable (avc-11628) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Oils, Horticultural

Albardón Altiaira Aceite mineral 98.50 CE Insecticida-Acaricida/Concentrado Emulsionable (avc-7717) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Pyrethrum

Altiaira PyreMax 0.2%PH Piretrina Insecticida / Polvo humectable (avc-7091) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.  
Altiaira Crittox Piretrina Insecticida / Polvo humectable (avc-7094) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Altira Piretrip 0.2%PH Piretrina Insecticida / Polvo humectable (avc-7598) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Boron Products, Copper Products, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions

Agriful Eco Bionutriente Radicular de Rápida Asimilación Fertilizante líquido para aplicación radicular (afs-11457) 1

Refer to specific ingredient categories for applicable use restrictions. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Tecamin Bionutriente Bioestimulante líquido para aplicación radicular y foliar (afs-11458) n1

Refer to specific ingredient categories for applicable use restrictions. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fertilizers, Blended with micronutrients

Tecamin Raiz Eco Bionutriente Radicular A Base de Aminoácidos Y Microelementos (afs-11459) n1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Bea-Plus Insecticida Agrícola Polvo Humectable WP (abn-6396) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Beauver Insecticida Agrícola Polvo Humectable WP (abn-14289) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Diatomaceous Earth

Agrobionsa Diata-Sin (abn-5636) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Diata Tron Agente de Control Biológico Polvo Humectable (abn-5649) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural DME (abn-6402) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Natural DME (abn-14293) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Pesticides

Nem-Out Nematicida Agrícola Polvo Humectable WP (abn-5633) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tricoder-Forte Fungicida Agrícola Polvo Humectable WP (abn-5634) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Lila-Sin Nematicida Agrícola Polvo Humectable WP (abn-5637) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Meta-Sin Insecticida Agrícola Polvo Humectable WP (abn-5638) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Pae-Sin Insecticida Agrícola Polvo Humectable WP (abn-5639) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Tricho-Sin Fungicida Agrícola Polvo Humectable WP (abn-5640) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Tri-Sin Insecticida Agrícola Polvo Humectable WP (abn-5641) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DestruX Insecticida Agrícola Polvo Humectable WP (abn-5643) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Elicitor Fungicida Agrícola Polvo Humectable WP (abn-5644) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Entomotri Insecticida Agrícola Polvo Humectable WP (abn-5645) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lilac Nematicida Agrícola Polvo Humectable WP (abn-5646) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Paecilom Insecticida Agrícola Polvo Humectable WP (abn-5647) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lila Tron Nematicida Agrícola Polvo Humectable WP (abn-5650) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Meta Tron Insecticida Agrícola Polvo Humectable WP (abn-5651) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pae Tron Insecticida Agrícola Polvo Humectable WP (abn-5652) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tri Tron Insecticida Agrícola Polvo Humectable WP (abn-5653) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lila-Plus Nematicida Agrícola Polvo Humectable WP (abn-6397) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Meta-Plus Insecticida Agrícola Polvo Humectable WP (abn-6398) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pae-Plus Insecticida Agrícola Polvo Humectable WP (abn-6399) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tricho-Plus Fungicida Agrícola Polvo Humectable WP (abn-6400) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tri-Plus Insecticida Agrícola Polvo Humectable WP (abn-6401) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Elicitor Fungicida Agrícola Polvo Humectable WP (abn-14288) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Dextrux Insecticida Agrícola Polvo Humectable WP (abn-14290) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Paecilom Insecticida Agrícola Polvo Humectable WP (abn-14291) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Entomotri Insecticida Agrícola Polvo Humectable WP (abn-14292) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Lilac Nematicida Agrícola Polvo Humectable WP (abn-14296) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Callejón Esmeralda #406 Int. 10. Colonia Acapulco  
Ensenada, Baja California 22890  
Mexico  
[info@agronuve.com.mx](mailto:info@agronuve.com.mx)

### Crop Products: Aquatic Plant Products, synthetically extracted

SEAWEED 3 BIOESTIMULANTE LIQUIDO (anv-16766)

### Crop Products: Botanical Pesticides

Agronuve innovando valor CHALEP DEFENSE insecticida (anv-8411) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Sulfate

Agronuve Cu-Protech Fungicida/Bactericida (anv-7635) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fertilizers, Blended with micronutrients

Agronuve innovando valor BIOAMIN PLUS Elicitor Vegetal (anv-11689) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fungicides

Agronuve innovando valor BOTRIMIL Fungicida (anv-8309) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

### Crop Products: Humic Acids – alkali extracted

SOIL CARBON Mejorador de Suelos (anv-16129)

### Crop Products: Microbial Pesticides

Agronuve innovando valor NOT FUNGUS Fungicida/Nematicida (anv-8258) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Products

Biosphere Soil Inoculante De Suelo (anv-15288)

### Crop Products: Potassium Silicate, aqueous

Agronuve Sili-K Insecticida/Fungicida (anv-6803) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Agroproveedora de Insumos Alternativos, S.R.L. de C.V.

## Crop Products: Amino Acids

CARBAMIN (aoo-10877)

## Crop Products: Copper Sulfate

Fungocob Fungicida y bactericida Solución acuosa (aoo-10613) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Garlic

Blue Shield 20 DF HB hidróxido cúprico fungicida gránulos dispersables (aes-8651) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Blue Shield 20 WG Bactericida, Fungicida - Inorgánico Metallic Copper (aes-8652) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Copernico HB hidróxido cúprico fungicida gránulos dispersables (aes-8653) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Star Hidro HB 20 DF hidróxido cúprico Fungicida/Gránulos dispersables (aes-8654) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Copper Green 25 WG Fungicida, Bactericida- Inorgánico (aes-8909) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Green Shield oxícloruro de cobre fungicida gránulos dispersables (aes-15247) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

NUCOP MAX Hidróxido Cúprico Fungicida Gránulos Dispersables (aes-15373) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

COC MAX Oxícloruro De Cobre Fungicida Polvo Humectable (aes-15374) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Amino Acids

BIOST Organic VPH 9.0 Seed Treatment 5-0-0 (alb-8700) n

### Crop Products: Copper Sulfate

Basic Copper 53 (alb-0048) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Coppers, fixed

Nu-Cop 50 WP Agricultural Fungicide/Bactericide (alb-4253) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Agri Star® COC WP Copper Oxychloride Agricultural Fungicide (alb-0049) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Nu-Cop® 50DF Fungicide/Bactericide (alb-2558) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Nu-Cop® HB Fungicide/Bactericide (alb-2993) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Copper Hydroxide 20% DF

Fungicide/Bactericide (alb-3940) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Nu-Cop 30 HB Fungicide/Bactericide (alb-6644) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Copper Hydroxide MUP

Fungicide/Bactericide (alb-14235) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Microbial Pesticides

Agri Star Crescendo (alb-15938) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Products

BIOST Insecticide 100 Biological Insecticide (alb-8698) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**BIOST Nematicide 100 Biological Nematicide (alb-8699) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Calcium Chloride**

Albion Plant Nutrition Metalosate Calcium Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6048) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

**Crop Products: Calcium Chloride, Fertilizers, Blended with micronutrients**

Albion Plant Nutrition Metalosate Calcium Boron Amino Acid Complex Soluble Powder Foliar Fertilizer with Boron (abl-6047) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Calcium Chloride, Fertilizers, Blended with micronutrients, Magnesium Sulfate – Allowed With Restrictions**

Albion Plant Nutrition Metalosate Multimineral Amino Acid Complex Soluble Powder Foliar Fertilizer 4-0-0 (abl-6076) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Fertilizers and Soil Amendments, Blended**

Albion Plant Nutrition Metalosate Potassium Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-10427)

**Crop Products: Fertilizers, Blended with micronutrients**

Albion Plant Nutrition Metalosate Copper Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6049) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Albion Plant Nutrition Metalosate Iron Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6050) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Albion Plant Nutrition Metalosate Manganese Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6051) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Albion Plant Nutrition Metalosate Zinc Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6052) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Fertilizers, Blended with micronutrients, Fertilizers, Blended with synthetic magnesium sulfate**

Albion Plant Nutrition Metalosate Crop-Up Amino Acid Complex Soluble Powder Foliar Fertilizer 4-0-0 (abl-8402) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

**Crop Products: Fertilizers, Blended with synthetic magnesium sulfate**

Albion Plant Nutrition Metalosate Magnesium Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6075) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

## Crop Products: Copper Sulfate

### ARCADIAN EZPOROFF Fungicida &

Bactericida Sistémico (arh-14111) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Soap

### ARCADIAN BIODUX RBD Supresor de

Plagas Orgánico (arh-14110) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

### Crop Products: Biopesticides

CINNAMON BARK OIL (avt-14389) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CLOVE LEAF ESSENTIAL OIL (avt-14391) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GARLIC OIL (avt-14393) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

LEMON GRASS OIL (avt-14395) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CAPSICUM OLEORESIN (avt-14397) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PEPPERMINT ESSENTIAL OIL (avt-14399) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### ROSEMARY OIL (avt-14401) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### THYME OIL (avt-14403) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Chlorine Materials

Accu-Tab® SI Calcium Hypochlorite Tablets with Scale Inhibitor Potable/Industrial Water Chlorination (ppg-2373) 1  
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Induclor Calcium Hypochlorite Granules for Industrial Applications and Swimming Pool Use Water Treating Agent - Algaecide - Bactericide - Bleach (ppg-5284) 1  
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

#### Processing Products: Chlorine Materials

Induclor Calcium Hypochlorite Granules for Industrial Applications and Swimming Pool Use Water Treating Agent - Algaecide - Bactericide - Bleach (ppg-5285) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Indutabs Induclor Calcium Hypochlorite Tablets (ppg-13740) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Accu-Tab Calcium Hypochlorite Tablets (ppg-13806) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. ### Crop Products: Boron Products

Phyto-Plus® Brand Boron 3.0% (bai-9570) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Calcium Chloride

Phyto-Plus® Brand Calcium 5.0% (bai-9993) 1  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

### Crop Products: Fertilizers, Blended with micronutrients, Sodium Nitrate (Chilean Nitrate)

Phyto-Plus® Brand Micro-Plenty 2-0-1 (bai-9573) 1  
This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Iron Products

Phyto-Plus® Brand Iron 5.0% (bai-9569) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Lignin Sulfonates

Phyto-Plus® Brand Plant Stimulator (Buffer) (bai-9575) 1  
For use as a chelating agent or dust suppressant.

### Crop Products: Magnesium Sulfate – Allowed With Restrictions

Phyto-Plus® Brand Magnesium 2.5% (bai-9571) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Crop Products: Manganese Products

Phyto-Plus® Brand Manganese 5.0% (bai-9567) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Micronutrients

Phyto-Plus® Brand Zinc 5.0% (bai-8025) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Wetting Agents

Phyto-Plus® Brand Foliar Friend (bai-9574)

### Crop Products: Anaerobic Digestate, without manure feedstock

Campos Borquez Baroyeca Orgánicos  
Ácidos carboxílicos Baroyeca (Ira-13367)

### Crop Products: Compost Tea, from composted manure feedstock

Lixiviado de Lombriz Baroyeca (Ira-10193) 1  
Must be used in a manner that does not contribute to contamination of crops, soil, or water by pathogenic organisms in accordance with §205.203(c).

### Crop Products: Compost, other (plant and animal materials)

Composta Organica Baroyeca (Ira-10192)

### Crop Products: Microbial Pesticides

Campos Borquez Baroyeca Orgánicos  
Trichoderma Baroyeca (Ira-13045) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Products

Campos Borquez Baroyeca Orgánicos  
Complejo microbiano (Ira-13372)

### Crop Products: Adjuvants, for use in pesticides

BASF Pluronic P 105 (bsf-14637) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BASF Tamol® NH 7519 (bsf-16031) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BASF Vultamol® NH 7519 (bsf-16032) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Crop Products: Boric Acid

MotherEarth Granular Scatter Bait (bsf-5719) 1

May be used as an insecticide for structural pest control provided there is no direct contact with organic food or crops.

### Crop Products: Inoculants

Vault® NP Liquid Inoculant for Soybeans (bsf-0399)

Nodulator® Liquid Inoculant for Pea and Lentil (bsf-0713)

### Crop Products: Microbial Products

Serifel Biofungicide (bsf-6102) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Subtlex® NG Biological Fungicide (bsf-8963) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Serifel NG Biological Fungicide (bsf-12305) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Oils, Horticultural

Ultra Pure Oil Horticultural Insecticide, Miticide and Fungicide (bsf-12653) 1

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Processing Products: Pheromones

Allure® MD Mating Disruption System for Stored Product Moths (bsf-1271)

BASF Allure Stored Product Moth Kit (bsf-10468)

### Crop Products: Ferric Phosphate

Bayer Advanced Natria® Snail & Slug Killer  
Bait Ready-to-Use (bad-1888) 1  
For use as slug and snail bait. May only be  
used if the requirements of 205.206(e) are  
met, which requires the use of preventive,  
mechanical, physical, and other pest, weed,  
and disease management practices.

### Crop Products: Microbial Products

Bayer Advanced Natria™ Disease Control  
Ready-to-Spray (bad-1889) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

### Crop Products: Neem and Neem Derivatives

Bayer Advanced Natria™ Neem Oil Ready-  
to-Use (bad-4366) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

### Crop Products: Soap

Bayer Advanced Natria® Insecticidal Soap  
Ready-to-Use (bad-1887) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices. For use as an algicide/demosser,  
herbicide or insecticide. When used as an  
herbicide may only be used for farmstead  
maintenance (roadways, ditches, right of  
ways, building perimeters) and ornamental  
crops.

### Crop Products: Biopesticides

Bayer Minuet (gus-11626) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Bayer CropScience MeloCon Prime DC  
Biological Nematicide (gus-12802) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

### Crop Products: Fungicides

Bayer Contans WG Biological Fungicide  
(gus-6391) 1  
For plant disease control. May be used for  
other pesticidal purposes if the requirements  
of 205.206(e) are met, which requires the  
use of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices. For use in post-harvest handling  
of raw agricultural commodities.

### Crop Products: Microbial Pesticides

Bayer Serenade Optimum A Wettable  
Powder Biofungicide (gus-3975) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Bayer Serenade MAX (gus-4424) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Serenade Garden Disease Control Ready to  
Use (gus-4427) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Bayer Jazz A Wettable Powder Biofungicide  
(gus-5131) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Bayer Serenade Opti A Wettable Powder  
Biofungicide (gus-5425) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

### Crop Products: Microbial Products

Bayer Serenade ASO (gus-4423) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Bayer Serenade Soil (gus-4425) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

**Serenade Garden Disease Control Concentrate (gus-4426) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Serenade Garden Disease Control Ready to Spray (gus-4428) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Bayer Rhapsody (gus-5132) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Citrus Products

Fractal Extracto de cítrico  
Bactericida/Solución Acuosa (bls-3973) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Garlic

Berni Labs BIO CRACK Extracto acuoso de ajo + extracto de manzanilla y ruda  
Insecticida/Suspensión Acuosa (bls-4259) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Berni Labs ALLIUM FORCE Extracto acuoso de ajo + extracto de manzanilla y ruda  
Insecticida/Suspensión Acuosa (bls-8016) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BUG BALANCER Extracto acuoso de ajo + extracto de manzanilla y ruda  
Insecticida/Suspensión Acuosa (bls-8018) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Hydrogen Peroxide

Best Sanitizers Inc Alpet PAA 5.6% (bsg-11793) 1  
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

#### Crop Products: Peracetic Acid/Peroxyacetic Acid

Best Sanitizers Inc. Alpet PAA 15% (bsg-11792) 1  
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

#### Processing Products: Alcohol, Ethyl (Ethanol)

Best Sanitizers Inc ALPET D2 Quat-Free Surface Sanitizer Ready-to-Use (bsg-15432) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

#### Processing Products: Peracetic Acid/Peroxyacetic Acid

Best Sanitizers Inc. ALPET PERA FC 15% (bsg-11837) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.  
Best Sanitizers Inc. ALPET PERA FC 22% (bsg-11838) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### Crop Products: Microbial Pesticides

Derma-Green Biofungicida (bns-10456) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Green-Bacill Biofungicida (bns-10457) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Green-BT Insecticida Biológico Agrícola (bns-10458) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nema-Green Paecilomyces lilacinus Nematicida Biológico (bns-10459) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Meta-Green Plus Bioinsecticida (bns-11198) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nema-Fin Pochonia chlamydosporia Nematicida Biológico (bns-11399) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bea Green Plus Agente de Control Biológico-Polvo Humectante (bns-11401) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Neem and Neem Derivatives

Green Neem SA Insecticida Agrícola (bns-11199) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Boron Products

Fertilgold B 0-0-0 (bhn-10974) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Boron Products, Fertilizers, Blended with micronutrients

Fertilgold Soil 5-0-0 (bhn-11525) n1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Fertilgold XT 4-0-0 (bhn-13851) n1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Botanical Pesticides

Huma Gro Thyme Pro (bhn-10466) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fertilgold Proud 3 (bhn-11447) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fertilgold Promax (bhn-11510) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fertilgold Double Play (bhn-14718) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fertilgold Triple Play (bhn-14719) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Huma Gro Promax (bhn-14883) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Huma Gro Proud 3 (bhn-14884) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Calcium Chloride

Fertilgold Ca 0-0-0 (bhn-10789) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

### Crop Products: Cobalt Products

Fertilgold Co 0-0-0 (bhn-11357) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Copper Products

Fertilgold Cu 0-0-0 (bhn-10975) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Biologa® Bathur® (bla-10732) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Biopesticides**

Biologa® Basub® (bla-10731) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Botanical Pesticides**

Biologa® ProtectoX® Fungicida-Bactericida Extracto de Gobernadora (Larrea tridentata) Fungicida-Bactericida/Suspensión Concentrada (SC) (bla-10580) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Biologa® Solak® Extracto de Canela  
Insecticida/Concentrado Emulsionable (CE)  
(bla-10582) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Copper Products

BTX 44SC (bla-13638) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Crop Products: Copper Sulfate

Biologa® Secadert® Sulfato de Cobre  
Pentahidratado Fungicida-  
Bactericida/Concentrado en Suspensión  
(SC) (bla-10581) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Copper Sulfate, Elemental Sulfur

Biologa® Secadert®-S (bla-16066) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Coppers, fixed

Biologa® BTX PLUS® Fungicida-  
Bactericida/Suspensión Acuosa (SA) (bla-  
11584) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Biologa BTX (bla-15030) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

#### Crop Products: Fertilizers and Soil Amendments, Blended

Alzim® (bla-13549)

#### Crop Products: Microbial Products

Biologa® Bauba® (bla-10881) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Trichoderma spp.

Biologa® Trichor® (bla-10733) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Biologa Mylos (bla-14440) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Processing Products: Chlorine Materials, Potassium Hydroxide

#### PRO DET VG (bar-15728) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production. If used for lye peeling of fruits or vegetables, may only be used for peeling peaches.

### Processing Products: Peracetic Acid/Peroxyacetic Acid

#### PRO PERACETIC 15 (bar-14509) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

BioFlora Dry Crumbles 6-10-1 + 10% Ca (bmg-2076)

BioFlora® Potash (bmg-3394)

BioFlora R/P Blend (bmg-11894)

## Crop Products: Fertilizers, Blended

BioFlora Dry Crumbles 5-6-5 + 8% Ca (bmg-6364)

## Crop Products: Fertilizers, Blended with micronutrients

BioFlora Boron-Zinc (bmg-8158) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fertilizers, Blended with micronutrients, Fertilizers, Blended with synthetic magnesium sulfate

BioFlora Forzabrote (bmg-6793) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fish Products

BioFlora Fish-O-Mega 4-1-1 (bmg-9375) n

## Crop Products: Fulvic Acids

BioFlora Fulvex™ (bmg-9337)

BioFlora Fulvex Powder 100% Water Soluble (bmg-15131)

BioFlora Fulvico Fertilizante Orgánico (bmg-16035)

## Crop Products: Humic Acids

BioFlora Nutrivite (bmg-10873)

## Crop Products: Humic Acids – alkali extracted

BioFlora Humega® (bmg-0556)

BioFlora IsoGreen (bmg-4528)

BioFlora Lot 125 (bmg-6794)

BioFlora Humega Iso (bmg-13285)

## Crop Products: Inoculants

BioFlora GOgreen (bmg-2113)

## Crop Products: Iron Products

BioFlora Iron (bmg-0458) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Limestone

BioFlora Go Cal (bmg-10922)

## Crop Products: Magnesium Sulfate – Allowed With Restrictions

BioFlora® Magnesium 4% (bmg-1057) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Fulmega™ 1% Mg (bmg-1198) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

## Crop Products: Magnesium Sulfate – Allowed With Restrictions, Micronutrients

BioFlora Alfalfa Blend (bmg-6367) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

BioFlora Minera (bmg-15612) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

## Crop Products: Manganese Products

BioFlora® Man (1%) (bmg-3088) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

BioFlora® Manganese 4% (bmg-4960) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Microbial Products

GO Isolates (bmg-3558)

BioFusion FUSION-START Organic Bioestimulante (bif-16827) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Humic Acids – alkali extracted

BioFusion K-Hume 24 Organic Mejorador (bif-11756)

#### Crop Products: Iron Products

BioFusion FE-FUSION Organic Biocorrector (bif-13777) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Crop Products: Magnesium Carbonate

BioFusion Flow-Mag Organic Macros (bif-10670)

**Crop Products: Bacillus thuringiensis**  
BT NOW (bss-13201) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Hydrogen Peroxide**  
OxiDate 2.0 Broad Spectrum Bactericide/Fungicide (bss-3213) 1  
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.  
TerraClean 5.0 (bss-4640) 1  
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

SaniDate WTO (bss-5819) 1  
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

ZeroTol 2.0 (bss-5846) 1  
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

GreenClean Liquid 5.0 (bss-12406) 1  
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

#### OxiDate 5.0 (bss-12910) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

#### SaniDate 5.0 (bss-12912) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

#### SaniDate WTO (bss-12913) 1

For use as disinfectant or sanitizer, including irrigation system cleaner.

### Crop Products: Hydrogen Peroxide Starting Materials

#### PerCarb (bss-8484) 1

Must be mixed with water prior to use. For plant disease control. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Inoculants

#### TerraGrow (bss-5931)

TerraGrow (2-0-6) (bss-15889)

### Crop Products: Neem and Neem Derivatives

#### AzaGuard (bss-1943) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Peracetic Acid/Peroxyacetic Acid

#### ZeroTol HC (bss-11883) 1

For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

#### SaniDate 12.0 (bss-13782) 1

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

### Crop Products: Soap

#### BioSafe Weed & Grass Killer Broad Spectrum Non-Selective Herbicide Concentrate (bss-12911) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

### Crop Products: Soap, Ammonium

#### AXXE® Broad Spectrum Herbicide (bss-2930) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. When used as animal repellent, may only be used as a large animal repellent and substance must not contact soil or edible portion of crop.

### Crop Products: Sodium Carbonate Peroxyhydrate

#### GreenCleanPRO Broad Spectrum Algaecide/Fungicide/Bactericide (bss-2281) 1

Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### BioSafe Systems GreenClean Granular Algaecide (bss-13190) 1

Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Livestock Products: Neem

#### AzaGuard (bss-11996)

### Livestock Products: Peracetic Acid/Peroxyacetic Acid

#### SaniDate 5.0 (bss-2333) 1

For sanitizing facility and processing equipment.

### Processing Products: Peracetic Acid/Peroxyacetic Acid

#### SaniDate 12.0 (bss-2086) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### SaniDate 5.0 (bss-2087) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### StorOx 2.0 Broad Spectrum Bactericide/Fungicide Disinfectant and Sanitizer (bss-2612) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### SaniDateFD (bss-4550) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### SaniDate 15.0 (bss-6993) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### SaniDate All Purpose Disinfectant Concentrate (bss-11937) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Biota Nutri Biota Calcium 0.04-0-0 (bnu-13105)  
Biota Nutri Biota Kalium 15% 0.03-0-15 (bnu-15845)

### Crop Products: Fertilizers, Blended

Biota Nutri Biota Phos 8% 1.5-8-0 (bnu-14482)  
Biota Nutri Biota NPK 3-3-3 High Organic (bnu-14630) n  
Biota Nutri Biota NPK 3-2-4 (bnu-14632)  
Biota Nutri Biota NPK 5-2-2 High Organic (bnu-14778) n

### Crop Products: Potassium Chloride, Sodium Nitrate (Chilean Nitrate)

Biota Nutri Biota NPK 3-0-9 (bnu-13964) 1  
Must be applied in a manner that minimizes chloride accumulation in the soil. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

### Crop Products: Botanical Pesticides

Brandt Ecotec Plus Broad Spectrum Insecticide and Miticide (cle-6983) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Brandt Organics Aleo Bactericide and Fungicide (cle-8187) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Calcium Chloride

Brandt Organiplex 8% Ca Liquid Complexed Nutrient (cle-12360) 1  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Brandt Organics 6% Ca Liquid Complexed Micronutrients (cle-16006) 1  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Brandt Organiplex Ca Fertilizante Líquido de Uso Foliar (cle-16753) 1  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

### Crop Products: Calcium Polysulfide

Brandt Lime Sulfur Fungicide (cle-4574) 1  
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Products

Brandt Organics 5% Cu Liquid Complexed Micronutrients (cle-4472) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Ferric Phosphate

Brandt Antixx Plus Ant & Crawling Insect Killer (cle-6514) 1

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Humates

Brandt Leonardite - Coarse Granular Humic Acid (cle-10250)

### Crop Products: Iron Products

Brandt Ferrous Sulfate - Crystal Nutrient Supplement (cle-3767) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics 5% Fe Liquid Complexed Micronutrients (cle-4474) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Ferrous Sulfate - Coarse Granular (cle-11219) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Ferrous Sulfate - Fine Granular (cle-11220) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt 5% Fe Fertilizante Inorgánico Líquido Soluble (cle-16080) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organiplex Fe Fertilizante Líquido de Uso Foliar (cle-16756) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Iron Products, Magnesium Sulfate – Allowed With Restrictions, Manganese Products, Zinc Products

Brandt Crop Mix Fertilizante Inorgánico Líquido Soluble (cle-16078) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Iron Products, Manganese Products, Zinc Products

Brandt Organiplex Micromix Fertilizante Líquido de Uso Foliar (cle-16755) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Magnesium Sulfate – Allowed With Restrictions

Brandt Magnesium Sulfate - Crystal Nutrient Supplement (cle-3768) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Brandt Magnesium Sulfate - Granular Nutrient Supplement (cle-4356) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Brandt Organics 4% Mg Liquid Complexed Micronutrients (cle-4479) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Brandt 4% Mg Fertilizante Inorgánico Líquido Soluble (cle-16079) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Crop Products: Magnesium Sulfate – Allowed With Restrictions, Micronutrients

Brandt Organics Crop Mix Liquid Complexed Micronutrients (cle-4473) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics Hort Mix Liquid Complexed Micronutrient (cle-11332) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Manganese Products

Brandt Manganese Sulfate - Powder Micronutrient Supplement (cle-3765) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Manganese Sulfate - Granular Micronutrient Supplement (cle-3766) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Micronutrients

Brandt Organics 7% Mn Liquid Complexed Micronutrients (cle-4475) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics Tree & Vine Mix Liquid Complexed Micronutrients (cle-4476) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics Desert Crop Mix Liquid Complexed Micronutrient (cle-11331) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organiplex Micro Mix Liquid Complexed Micronutrients (cle-12530) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics 3% B Liquid Complexed Micronutrients (cle-13073) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organiplex 4% Fe Liquid Complexed Nutrients (cle-14625) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Crop Products: Nematicides

Brandt Nema-Q A Biopesticide (cle-4343) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Oils, Horticultural

Saf-T-Side Paraffinic Oil from Petroleum Insecticide and Acaricide Emulsion in Water (cle-1078) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Brandt TresOil Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2685) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Brandt TriTek Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2686) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Miticide / Insecticide 800EL (cle-3773) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Emulsion d'Huile pour bouillies agricoles Insecticide & Acaricide (cle-5523) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Insektisit-Akarisit (cle-6981) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Peracetic Acid/Peroxyacetic Acid

Hye-Clean Out Antimicrobial Solution (cle-5967) 1  
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

#### Crop Products: Wetting Agents

Brandt Organics Ag Aide Spreader Activator (cle-6305)

#### Crop Products: Zinc Products

Brandt Organics 7% Zn Liquid Complexed Micronutrients (cle-4477) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Organics 10% Zn Liquid Complexed Micronutrients (cle-4478) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Zinc Sulfate - Powder (cle-11221) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Organiplex 6% Zn Liquid Complexed Micronutrient (cle-12359) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Zinc Sulfate - Granular Nutrient Supplement (cle-15805) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt 10% Zn Fertilizante Inorgánico Líquido Soluble (cle-16081) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Organiplex Zn Fertilizante Líquido de Uso Foliar (cle-16754) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Chlorine Dioxide

CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-2220) 1  
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

### Livestock Products: Chlorine Dioxide

CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-2221) 1

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

### Processing Products: Chlorine Dioxide

CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-1857) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

CDG Aquadioxide (Contains 0.3% Chlorine Dioxide Aqueous Solution) (cdg-14589) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Crop Products: Bacillus thuringiensis

Javelin WG Biological Insecticide (ttc-0101) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agree® WG Biological Insecticide (ttc-8145) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Deliver® Biological Insecticide (ttc-9170) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Able® 50 WDG Biological Insecticide (ttc-3186) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Delfin WG Biological Insecticide (ttc-0422) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CoStar® Biological Insecticide (ttc-1532) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Condor WP Wettable Powder Bioinsecticide (ttc-2628) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Thuricide HPWP Biological Insecticide (ttc-2673) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Thuricide HPC-O for Home & Gardens Biological Insecticide Easy-to-Mix Liquid Concentrate Ready to Spray (ttc-2709) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agree 50WP Biological Insecticide (ttc-6224) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

TRIDENT Biological Insecticide (ttc-7168) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Biopesticides

MeloCon WG Biological Nematicide (ttc-6525) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MeloCon LC Biological Nematicide (ttc-16172) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fungicides

SoilGard® Microbial Fungicide (ttc-0551) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

### Crop Products: Microbial Pesticides

PFR-97 20% WDG Microbial Insecticide (ttc-2838) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Double Nickel 55 Biofungicide Water Dispersible Granular Biofungicide (ttc-2901) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Amylo-X Biofungicide Water Dispersible Granular Biofungicide (ttc-2980) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Double Nickel LC Biofungicide Aqueous Suspension Biofungicide/Bactericide (ttc-2981) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

LifeGard LC Biological Plant Activator (ttc-13606) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PFR-97 10% ES Microbial Insecticide (ttc-16272) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Products

LifeGard WG Biological Plant Activator (ttc-7169) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Neem and Neem Derivatives

Trilogy® Fungicide/Miticide/Insecticide (ttc-8073) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Neemix® 4.5 Insect Growth Regulator Biological Insecticide (ttc-0550) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Triact® 70 Fungicide/Miticide/Insecticide (ttc-9234) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Neem Oil RTU Fungicide/Miticide/Insecticide (ttc-4003) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NeemGard Fungicide/Miticide/Insecticide (ttc-0493) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nimbuz™ Fungicide/Miticide/Insecticide (ttc-2559) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Trilogy XL-O Fungicide/Miticide/Insecticide (ttc-3510) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Polyoxin D Zinc Salt

OSO 5%SC Fungicide (ttc-13605) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Potassium Bicarbonate

Carb-O-Nator (ttc-6938) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Potassium Silicate, aqueous

Sil-MATRIX LC

Fungicide/Miticide/Insecticide (ttc-13607) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Soap

DES-X™ Insecticidal Soap Concentrate (ttc-1763) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Final-San-O Non-Selective Grass and Broadleaf Herbicide (ttc-2557) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Crop Products: Spinosad

Seduce Insect Bait Ant, Earwig, and Cutworm Bait (ttc-1923) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Virus Sprays

Gemstar® LC Insecticidal Virus Liquid Concentrate Biological Insecticide (ttc-9821) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Spod-X LC Insecticidal Virus Liquid Concentrate Biological Insecticide (ttc-9822) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYD-X® Insecticidal Virus An Aqueous Suspension Biological Insecticide for Control of the Codling Moth (ttc-3084) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYD-X® HP Insecticidal Virus High Potency Aqueous Suspension Biological Insecticide for Control of the Codling Moth (ttc-2802) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Madex HP Insecticidal Virus Biological Insecticide (ttc-14957) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Chlorine Materials

Oxide+ Deposition Control 0.05% Sodium  
Hypochlorite as Hypochlorous Acid at pH 7.0  
(che-6620) 1

Residual chlorine levels in the water in direct  
crop contact (when used pre-harvest) or as  
water from cleaning irrigation systems  
applied to the soil should not exceed the  
maximum residual disinfectant level under  
the Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide), except that  
chlorine products may be used in edible  
sprout production according to EPA label  
directions. May be used up to maximum  
labeled rates for disinfecting and sanitizing  
equipment or tools. No intervening event is  
necessary before equipment is used in  
contact with organic crops.

RTU Oxide + (che-8924) 1

Residual chlorine levels in the water in direct  
crop contact (when used pre-harvest) or as  
water from cleaning irrigation systems  
applied to the soil should not exceed the  
maximum residual disinfectant level under  
the Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide), except that  
chlorine products may be used in edible  
sprout production according to EPA label  
directions. May be used up to maximum  
labeled rates for disinfecting and sanitizing  
equipment or tools. No intervening event is  
necessary before equipment is used in  
contact with organic crops.

### Livestock Products: Chlorine Materials

Oxide+ Deposition Control 0.05% Sodium  
Hypochlorite as Hypochlorous Acid at pH 7.0  
(che-6621) 1

Chlorine products may be used up to  
maximum labeled rates for disinfecting and  
sanitizing equipment or tools (including dairy  
pipelines and tanks). Residual chlorine  
levels in the water in direct contact with food  
products or animals shall not exceed the  
maximum residual disinfectant limit under the  
Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide). May be used  
up to maximum labeled rates for sanitizing  
equipment or tools. Label instructions  
should be followed regarding requirements  
for rinsing or not rinsing prior to the  
equipment's next use.

RTU Oxide + (che-8925) 1

Chlorine products may be used up to  
maximum labeled rates for disinfecting and  
sanitizing equipment or tools (including dairy  
pipelines and tanks). Residual chlorine  
levels in the water in direct contact with food  
products or animals shall not exceed the  
maximum residual disinfectant limit under the  
Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide). May be used  
up to maximum labeled rates for sanitizing  
equipment or tools. Label instructions  
should be followed regarding requirements  
for rinsing or not rinsing prior to the  
equipment's next use.

## Processing Products: Chlorine Materials

Oxide+ Deposition Control 0.05% Sodium  
Hypochlorite as Hypochlorous Acid at pH 7.0  
(che-6622) 1

May be used in direct contact with post-  
harvest crop or food at levels approved by  
the FDA or the EPA for such a purpose.  
Such use must include a final rinse and  
residual chlorine levels in final rinse water  
shall not exceed the Maximum Residual  
Disinfectant Limit under the Safe Drinking  
Water Act, except that a final rinse is not  
required for use in FSIS inspected egg  
breaking facilities. When used as  
disinfectants and sanitizers for food contact  
surfaces, may be used up to maximum  
labeled rates and rinsing is not required  
unless mandated by the label use directions.  
May be used up to maximum labeled rates  
for disinfecting and sanitizing equipment or  
tools. No intervening event is necessary  
before equipment is used in organic  
production.

RTU Oxide + (che-8769) 1

May be used in direct contact with post-  
harvest crop or food at levels approved by  
the FDA or the EPA for such a purpose.  
Such use must include a final rinse and  
residual chlorine levels in final rinse water  
shall not exceed the Maximum Residual  
Disinfectant Limit under the Safe Drinking  
Water Act, except that a final rinse is not  
required for use in FSIS inspected egg  
breaking facilities. When used as  
disinfectants and sanitizers for food contact  
surfaces, may be used up to maximum  
labeled rates and rinsing is not required  
unless mandated by the label use directions.  
May be used up to maximum labeled rates  
for disinfecting and sanitizing equipment or  
tools. No intervening event is necessary  
before equipment is used in organic  
production.

### Crop Products: Copper Products

C1 Chem One Copper Sulfate Crystals (col-4073) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Copper Sulfate

Copper Sulfate Crystals (col-4001) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Processing Products: Chlorine Materials

Produce Maxx Produce Quality Treatment Solution Antimicrobial Fruit and Vegetable Wash (sfs-7099) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Crop Products: Adjuvants, for use in pesticides

Chemurgic's Defoamer OR-10 Anti-foaming agent for spray applications (cac-6606) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Chemurgic's OR-100 Super Spreader Water Reducing Adjuvant (cac-6607) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Crop Products: Boron Products

Chemurgic's Boric Acid Crop Nutrition Supplement (cac-6543) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Citric Acid

Chemurgic's Citric Acid Anhydrous Granular (cac-6605)

### Crop Products: Iron Products

Chemurgic's Ferrous Sulfate 20% Nutritional Supplement for Plants/Crops (cac-13143) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Chemurgic Fine Granular Ferrous Sulfate Monohydrate Plant Food (cac-13479) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Chemurgic Coarse Granular Ferrous Sulfate Plant Food (cac-14206) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Magnesium Sulfate – Allowed With Restrictions

Chemurgic Magnesium Sulfate (Epsom Salts) Nutritional Feed Additive and Plant Food (cac-13141) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Crop Products: Manganese Products

Chemurgic Manganese Sulfate Feed Additive and Plant Food (cac-13478) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Micronutrients

Chemurgic Granular Manganese Sulfate (cac-13746) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Zinc Products

Chemurgic Hi-Lo Zinc Sulfate Feed Additive and Plant Food (cac-15844) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

#### Processing Products: Hypochlorous Acid

Clean Republic Disinfectant + Sanitizer  
Ready To Use for Hard Non-Porous  
Surfaces (crc-14429) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Crop Products: Biopesticides

Bacit-21 Bactericida Orgánico Bactericida Agrícola/ Líquido Emulsionable (ans-12816) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Botanical Pesticides

FLY-NOT Insecticida Orgánico Extracto Vegetal de Quilaya Insecticida / Líquido Emulsionable (ans-4581) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FUBAGRO Fungicida Bactericida Orgánico Extracto Vegetal de Gobernadora + Pino + Ácido Cítrico Fungicida/Líquido Emulsionable (ans-4582) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NEM-OVER Nematicida Orgánico Extracto Vegetal de Pino + Orégano + Higuera Nematicida/Líquido Emulsionable (ans-4583) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

AGRI-CINNA Insecticida Orgánico Extracto Vegetal de Canela Insecticida Agrícola/Líquido Emulsionable (ans-5503) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BLEEM-30 Repelente e Insecticida Orgánico Extracto Vegetal de Neem + Ajo Insecticida Agrícola/Líquido Emulsionable (ans-5504) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fungicit Fungicida Botánico Extracto Vegetal de Almendro Fungicida Agrícola/Líquido Emulsionable (ans-12796) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

In-Copalk Insecticida Botánico Extracto Vegetal de Copalquin Insecticida Agrícola/Líquido Emulsionable (ans-12815) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Rudanem Nematicida Botánico Extracto Vegetal de Ruda Nematicida Agrícola/Líquido Emulsionable (ans-12819) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

LEPICIT-70 INSECTICIDA Orgánico Extracto de Vegetal de Orégano, Neem y Tolohache Insecticida Agrícola/Líquido Emulsionable (ans-12964) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Copper Sulfate

FOLI-CU PLUS Sulfato de Cobre Pentahidratado Fungicida Agrícola/Solución Acuosa (ans-5505) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Microbial Products

BIOCREALAB BIO BASSB INSECTICIDA Biológico Polvo Humectable (ans-6573) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO BONT INSECTICIDA Biológico Líquido Emulsionable (ans-6574) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO BOSTER FUNGICIDA Biológico (ans-6575) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO FACEF INSECTICIDA Biológico Polvo Humectable (ans-6576) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO FACEL NEMATICIDA Biológico Polvo Humectable (ans-6577) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO MA-BB INSECTICIDA Polvo Humectable (ans-6578) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO METT Insecticida Biológico Polvo Humectable (ans-6579) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO THORK FUNGICIDA Biológico Polvo Humectable (ans-6580) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride

Greenhow GreenBack 315 ORGÁNICO Fertilizante Líquido (cgs-12841) 1  
Refer to specific ingredient categories for applicable use restrictions. Must be applied in a manner that minimizes chloride accumulation in the soil.

#### Crop Products: Fertilizers, Blended with micronutrients, Iron Products

Greenhow GreenBack 402 ORGÁNICO Fertilizante Líquido (cgs-12842) n1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fertilizers, Blended with sodium nitrate

Greenhow GreenBack NISORG 15-0-2  
ORGÁNICO Fertilizante prilado para uso en  
agricultura orgánica y ecológica (cgs-12876)  
1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

### Crop Products: Fish Products, Liquid, Stabilized

Crop Products: Copper Sulfate

Comet Sulfato de Cobre Pentahidratado Fungicida Sólido Soluble (cup-11904) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Oximet Oxicloruro de Cobre Fungicida Polvo Humectable (cup-12204) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Trimet Sulfato Tribásico de Cobre Fungicida Polvo Humectable (cup-12205) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cobre Cuprosa Hidromet Hidróxido Cúprico Fungicida Polvo Humectable (cup-12699) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Livestock Products: Copper Sulfate

Cuprosa S.A. De C.V. Sulfato De Cobre Pentahidratado (cup-12079) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Cuprosa Copper Sulfate Crystals For Use as Feed Supplement (cup-13070) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Processing Products: Chlorine Dioxide

DeLaval RediOx™ An Aqueous Solution of Chlorine Dioxide (dlc-15053) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Processing Products: Chlorine Materials

DeLaval Premium Dioxide 3000 Sanitizer (dlc-12328) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Processing Products: Detergents, Sanitizers, Disinfectants and Cleaners

DeLaval Solve-Rite Mild Alkaline General Cleaner (dlc-14861) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients. For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

### Processing Products: Egg Wash – Allowed With Restrictions, Peracetic Acid/Peroxyacetic Acid

DeLaval Premium Peroxide III (dlc-12789) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations. Refer to specific ingredient categories for applicable use restrictions.

## Processing Products: Peracetic Acid/Peroxyacetic Acid

### Premium Peroxide II (dlc-7584) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

### DeLaval Pearl OX 22 Food Contact Substance (dlc-12920) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

## Processing Products: Sanitizers, Disinfectants and Cleaners

### DeLaval One Step Alkali (dlc-6762) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

### DeLaval Premium Plus Alkali (dlc-6763) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

### DeLaval FloorArmour (dlc-15079) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

## Processing Products: Sodium Hydroxide

### DeLaval Cleaning Solutions UltraGlimt Egg Wash Caustic Cip Cleaner (dlc-15627) 1

Must not be used in lye peeling of fruits and vegetables.

### Crop Products: Copper Sulfate

Masterbac Fungicida/Bactericida (dsn-10806) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Pesticides

AgroDiseño FQ 1500 Fungicida/Nematicida (dsn-10568) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BACS 410 (dsn-11501) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BTKur 731 (dsn-11502) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Trizym 220 (dsn-11519) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Paemyc 112 (dsn-11559) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CETRINO PH Bioinsecticida (dsn-12469) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ALBAR PH Bioinsecticida (dsn-12474) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Processing Products: Chlorine Dioxide

Dutrin Tablet Disinfectant-Virucide-Deoderizer-Biocide-Fungistatic-Algaestatic-Mildewstatic-Slimicide (dna-7526) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Crop Products: Copper Sulfate

AgriTec Algaecide/Bactericide (eal-10433) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### CopCheck (eal-14003) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Coppers, fixed

ET-F Algicide/Bactericide/Fungicide (eal-8838) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### COP-KLEEN Algicide/ Bactericide/ Fungicide (eal-14669) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Copper Products

Copper Sulfate (Pentahydrate) Granular (cda-12884) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Elemental Sulfur

SULFUR BENTONITE 85 Granular Fertilizer (cda-15474)

SULFUR BENTONITE 90 Granular Fertilizer (cda-15475)

### Crop Products: Iron Products

Ferrous Sulfate (Heptahydrate) FS/20 Deep Green (cda-11030) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Ferrous Sulfate (Monohydrate) FS/30 A Dry, High Analysis Iron Sulfate for Agriculture (cda-14165) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Magnesium Sulfate – Allowed With Restrictions

Magnesium Sulfate Monohydrate Granular (cda-10792) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Magnesium Sulfate (Heptahydrate) MGO/16 (cda-14176) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Crop Products: Manganese Products

Manganese Sulfate Monohydrate Mn/31 Granular (2-4 MM) (cda-13828) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Manganese Sulfate Monohydrate MN/31.8 Powder (cda-13863) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Sodium Nitrate (Chilean Nitrate)

Sodium Potassium Nitrate 15-0-9 Granular (cda-15070) 1  
This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

NITROORGANIK 15-0-2 (cda-17041) 1  
This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

### Crop Products: Zinc Products

Zinc Sulfate (Monohydrate) ZN/35 Granular (2-4MM) (cda-12722) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Zinc Sulfate (Monohydrate) ZN / 35 (cda-14068) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Crop Products: Hypochlorous Acid

VEGGOX CT Broad Spectrum Disinfectant for Crop Mgmt Tools & Production Aids (eaw-13487) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

### Processing Products: Hypochlorous Acid

VEGGOX PS Broad-Spectrum Disinfectant for Sanitation Processes, Food and Instruments (eaw-13488) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

## Crop Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10480) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

EnviroChlorite 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10481) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

## Crop Products: Hydrogen Peroxide

Perasan 'A' Antimicrobial Solution (ent-5117) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Peragreen® 5.6% Antimicrobial Solution (ent-7249) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

## Crop Products: Peracetic Acid/Peroxyacetic Acid

BioSide™ HS 15% (Antimicrobial Solution) (ent-2949) 1

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Peragreen 15% (Antimicrobial Solution) (ent-11505) 1

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

## Livestock Products: Acid Activators for Chlorine Dioxide

EnviroTech Acivate-O Acid Activator (ent-13094) 1

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

## Livestock Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-8702) 1

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

SureCide AH Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10867) 1

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

ChlorCide Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-11958) 1  
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

#### Livestock Products: Peracetic Acid/Peroxyacetic Acid

BioSide HS 15% (Antimicrobial Solution) (ent-16782) 1  
For sanitizing facility and processing equipment.

#### Processing Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-8701) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

#### Processing Products: Peracetic Acid/Peroxyacetic Acid

BioSide™ HS 15% (Antimicrobial Solution) (ent-1708) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan 'A' Antimicrobial Solution (ent-5118) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2 (Antimicrobial Solution) For Meat, Poultry, Seafood, and Produce (ent-6349) 1

### Processing Products: Acid Activators for Chlorine Dioxide

CLARVI SUPEROXID NC-200 (epq-12616) 1  
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b).

### Processing Products: Chlorine Dioxide

CLARVI GAD-10 Germicida de Alto Desempeño (epq-12567) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

CLARVI SUPEROXID NC-100 (epq-12615) 1

### Crop Products: Chlorine Materials

SES® Desinfectante agrícola (est-7429) 1  
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

### Livestock Products: Chlorine Materials

SoluVet Bio-Seguridad Desinfectante de alto nivel (est-8688) 1  
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

### OVOSES Desinfectante Avicola (est-16057) 1

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

### Processing Products: Detergents

EsteriClean Agroalimentaria Detergente Sanitizante (est-8550) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

EsteriClean Bio-Seguridad Detergente Sanitizante (est-8684) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

### Processing Products: Hypochlorous Acid

SES® Conservador de alimentos (est-7427) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### SES® Desinfección de alto nivel (est-7428) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

SES® Desinfectante agrícola (est-7430) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### SES® Desinfectante de alimentos (est-7431) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

SoluVet Bio-Seguridad Desinfectante de alto nivel (est-8687) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. ### Crop Products: Adjuvants, for use in pesticides

Evonik BREAK-THRU (deg-2155) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BREAK-THRU S 279 (deg-5201) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BREAK-THRU OE 446 (deg-5402) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BREAK-THRU EM O 7 (deg-6079) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

ISOLAN GO 33 (deg-6080) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

TEGOSTO 85 V (deg-6081) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BREAK-THRU SP 133 (deg-6109) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Evonik BREAK-THRU EM O 5 (deg-7096) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Evonik BREAK-THRU S 200 (deg-7097) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Evonik BREAK-THRU S 301 (deg-7098) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Evonik BREAK THRU S 233 (deg-7419) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Evonik BREAK THRU S 240 (deg-7420) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Evonik Tegoplant (deg-7642) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

EVONIK BREAK-THRU S 321 (deg-8212) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

EVONIK TEGIN O V (deg-8233) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

EVONIK BREAK-THRU OE 440 (deg-8583) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

NONIDET SF 3 (deg-10608) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

TEGO SML 20 (deg-11010) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AERODISP® W 7520 (deg-11260) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® 200 (deg-11261) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® R 972 (deg-11262) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® R 974 (deg-11263) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® R 812 S (deg-11264) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 22 Precipitated Silica (deg-11266) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 22 S Precipitated Silica (deg-11267) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 50 Precipitated Silica (deg-11268) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 310 Precipitated Silica (deg-11269) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 340 Precipitated Silica (deg-11270) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 350 (deg-11271) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

ZEOFREE® 600 (deg-11272) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BREAK-THRU 100 SL (deg-11275) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

ZEOLEX® 7 A (deg-11283) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

ZEOFREE® PLUS 5782 (deg-11284) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AERODISP® W 7622 (deg-11285) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 440 (deg-12904) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 465 (deg-12905) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 485 (deg-12906) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 485W (deg-12907) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Evonik BREAK THRU SD 260 (deg-15564) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AERODISP® W 7520 P (deg-16604) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Livestock Products: Probiotics

Evonik Ecobiol 500 Microbiological Feed Ingredient *Bacillus amyloliquefaciens* CECT 5940 (deg-14464) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Ecobiol Plus Microbiological Feed Ingredient  
*Bacillus amyloliquefaciens* CECT 5940 (deg-16602) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Processing Products: Peracetic Acid/Peroxyacetic Acid

Peraclean® 5 (Peroxyacetic Acid Solution) Sanitizer/Disinfectant (deg-0494) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraclean® 15 (Peroxyacetic Acid Solution) Sanitizer/Disinfectant (deg-0495) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraclean 22 CW (deg-5809) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Kompat Org Emulsifier - Compatibility Agent (bri-15024) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Crop Products: Biopesticides

Ovex Ovicide for Use in Organic Production (bri-6813) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Xhanthex Bactericide (bri-11986) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Boron Products, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride

Fosfi - K Org 1-6-3 (bri-12020) 1

Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

### Crop Products: Botanical Pesticides

Bemix Insecticide for Use in Organic Production (bri-3400) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NemaKill Nematicide for Use in Organic Production (bri-3497) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fender Nematicide (bri-5379) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Slam Org Bactericide (bri-11567) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Steward Bactericide (bri-12411) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Boom Insecticide for Use in Organic Production (bri-14960) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Calcium Chloride, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride

EvergreenOrg 3-3-3 (bri-5659) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Must be applied in a manner that minimizes chloride accumulation in the soil. Refer to specific ingredient categories for applicable use restrictions.

Invincible 3-3-3 (bri-16723) 1

Refer to specific ingredient categories for applicable use restrictions. For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Must be applied in a manner that minimizes chloride accumulation in the soil.

### Crop Products: Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride

Best-K Org 0-0-13 (bri-10754) 1

Must be applied in a manner that minimizes chloride accumulation in the soil. Refer to specific ingredient categories for applicable use restrictions.

### Crop Products: Fertilizers, Blended

Humiplant (bri-5130)

### Crop Products: Fertilizers, Blended with micronutrients

#### Fosfi-Cal Org 1-8-0 (bri-5956) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Saeta Org 1-8-0 (bri-16326) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fertilizers, Blended with micronutrients, Potassium Chloride

#### Magnet-B Org 1-6-3 (bri-10804) 1

Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fungicides

#### Jaque Mate Fungicide for Use in Organic Production (bri-3392) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

#### Cyclops Fungicide for Use in Organic Production (bri-3974) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

#### Disease Stop Fungicide for Use in Organic Production (bri-4468) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

### Crop Products: Growth Regulators for Plants

#### Outbreak Plant Growth Regulator (bri-4945) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Sucker Zap Tobacco Sucker Control Agent Plant Growth Regulator for Use in Organic Production (bri-15681) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Herbicides

#### Herbor-G Herbicide (bri-5268) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Weed Crush Herbicide for Use in Organic Production (bri-14769) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Oils

#### Aramite Insecticide for Use in Organic Production (bri-2474) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Bent Insecticide for Use in Organic Production (bri-2690) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Bug Stop Insecticide for Use in Organic Production (bri-4467) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### IC Turbo Insecticide for Use in Organic Production (bri-14240) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Akar-X Insecticide for Use in Organic Production (bri-16330) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Repellents – Allowed With Restrictions

#### Zig-Zag Natural Oil Insect Repellent (bri-14958) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Tickless Natural Oil Insect Repellent (bri-14959) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Processing Products: Vitamin D3

#### Brat-G Rodent Bait for Use in Organic Production (bri-3551) 1

For use as a rodenticide. For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone.

## Crop Products: Copper Products

Quimag Quimicos Aguila Copper Sulfate Crystal (fab-0991) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

QUIMAG Quimicos Águila Fertilizante Sulfato De Cobre Pentahidratado (fab-8239) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Quimag Quimicos Aguila Copper Sulfate Crystal Fertilizer (fab-13527) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Copper Sulfate

Quimag Quimicos Aguila Copper Sulfate Crystal (fab-0979) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Quimag Quimicos Aguila Copper Sulfate Crystal - Crop (fab-1986) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Livestock Products: Copper Sulfate

Quimag Quimicos Aguila Copper Sulfate Crystal (fab-7082) 1

For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

FIASA Orthosol-36 Mejorador, Acondicionador, Y Potencializador De Suelos Y Plantas (fia-10079)

Ager Si Mejorador, Acondicionador Y Potencializador De Suelos Y Plantas (fia-14936)

#### Crop Products: Fungicides

FIASA Mycelia Fungicida Biológico Agrícola (fia-12009) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

#### Crop Products: Iron Products

FIASA FIA FE Quelato de Fierro Fertilizer (fia-13886) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Crop Products: Magnesium Sulfate – Allowed With Restrictions

FIASA Fia Green Mg Fertilizante Líquido de Magnesio Fertilizer (fia-13887) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

FIASA Nutriquel Magnesio Plus Fertilizante Líquido de Magnesio Fertilizer (fia-14771) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

#### Crop Products: Microbial Products

FIASA BioSutil Bs Inoculante Bacillus Subtilis (fia-5617) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bac Fos Inoculante Bacillus Subtilis (fia-12006) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Soap

FIASA FlyKill Ácidos grasos + Sales Potásicas Insecticida Agrícola Suspensión acuosa (fia-6161) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

FIASA Sterminar Nematicida E Insecticida Botánico (fia-6163) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Nether Fly Ácidos grasos + Sales Potásicas Insecticida Agrícola Suspensión acuosa (fia-11183) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

FIASA FlyKill Jabón Agrícola Orgánico Ácidos Grasos + Sales Potásicas Suspensión Acuosa (fia-13294) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Crop Products: Zinc Products

FIASA Fia Green Zn Fertilizante Líquido de Zinc Fertilizer (fia-13888) 1

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

FIASA Nutriquel Zinc Plus Fertilizante Líquido de Zinc Fertilizer (fia-14917) 1

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Crop Products: Fertilizers and Soil Amendments, Blended

FOOP Canna Veg 1 (ffb-13116)

FOOP Canna Bloom 1 (ffb-13752)

FOOP Canna Bloom 2 (ffb-13800)

FOOP Garden Two (ffb-13812)

FOOP Canna Sweetener (ffb-13894)

### Crop Products: Fertilizers, Blended with micronutrients, Iron Products

FOOP Garden One (ffb-13810) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fertilizers, Blended with sodium nitrate

#### FOOP Canna Veg 2 (ffb-13797) 1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

#### FOOP Clone Gel (ffb-15037) 1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

#### FOOP Seed Starter (ffb-15946) 1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

#### FOOP Mist Ready To Use (ffb-16449) 1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

#### FOOP Mist Concentrate (ffb-16450) 1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

#### FOOP Infant Formula (ffb-16889) 1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

### Crop Products: Botanical Pesticides

Piredown Insecticida Agrícola Solución Oleosa (fms-14820) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Formugaric Insecticida Agrícola Concentrado Soluble (fms-14821) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Extracacter Bactericida Concentrado Soluble (fms-14822) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Picus Knock Down Insecticida Agrícola Solución Oleosa (fms-14823) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Neemgrow Insecticida Agrícola Concentrado Soluble (fms-14826) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Cinnagrow Insecticida Agrícola Concentrado Soluble (fms-14828) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Extracfin Nematicida Concentrado Soluble (fms-14886) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Sulfate

Sulfacu Fungicida Agrícola Solución Acuosa (fms-14817) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fertilizers, Blended

Pepticrop Fertilizante Orgánico Suspensión Acuosa (fms-14853)

Enraizmax Fertilizante Orgánico Mineral Líquido Soluble (fms-14854)

Fosfo K-55 Fertilizante Inorgánico (Líquido) (fms-14903)

### Crop Products: Fulvic Acids

Ácido Fúlvico Fertilizante Orgánico Polvo Soluble (fms-15295)

### Crop Products: Humic Acids – alkali extracted

Ácido Húmico Fertilizante Orgánico Polvo Soluble (fms-15284)

### Crop Products: Microbial Pesticides

Paelila Nematicida/Polvo Humectable (fms-14818) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

THCROP Fungicida Agrícola Polvo Humectable (fms-14819) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrimectin Insecticida Agrícola Solucion Emulsionable (fms-14825) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Seaweed and Seaweed Products

Seaweed 25 Fertilizante Orgánico Líquido Soluble (fms-14852)

Extracto de Algas Marinas Fertilizante Orgánico Polvo Soluble (fms-15286)

### Crop Products: Soap

Flysoap Insecticida Agrícola Suspensión Acuosa (fms-14824) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

### Crop Products: Botanical Pesticides

BIO-PLAX® forte Repelente Homeopático tipo barrera para Control de Plagas (fhm-12897) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NAT-RX® Solución Homeopática auxiliar para Control de Roya (fhm-15148) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VIRO-NAT® Solución Homeopática Anti-Viral (fhm-15150) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fungicides

NAT-BLK® Solución Homeopática auxiliar para Control de Sigatoka (fhm-13929) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

### Crop Products: Homeopathic Preparations

NATU-FOL® Nutriente Foliar Homeopático (fhm-13937)

EVH-1® Potencializador Vegetal Homeopático (fhm-13158)

POLY-NAT® Optimizador Homeopático de la Polinización (fhm-13159)

TRIGGER® Anti-Abortivo Vegetal Homeopático (fhm-13930)

### Crop Products: Mined Minerals, unprocessed

NAT-MW® Solución Homeopática auxiliar para Control de Cenicillas & Mildews (fhm-15147) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Chlorine Dioxide

GC 30 (gcr-11069) 1  
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

### Processing Products: Chlorine Dioxide

GC 2  
Disinfectant/Sanitizer/Tuberculocide/Virucide \*/Fungicide/Algaecide/Slimicide/Deodorizer (gcr-15841) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### GC 12.5

Disinfectant/Sanitizer/Tuberculocide/Virucide \*/Fungicide/Algaecide/Slimicide/Deodorizer (gcr-16015) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Crop Products: Biopesticides

Captiva Prime Insect Repellent/Insecticide (goc-6937) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

EcoSwing Botanical Fungicide (goc-10222) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Coppers, fixed

Previsto Fungicide-Bactericide (goc-4620) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Badge X2 Fungicide/Bactericide (goc-6610) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Neem and Neem Derivatives

Aza-Direct Botanical Insecticide (goc-9305) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Soap

M-Pede Insecticide/Miticide/Fungicide (goc-2510) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Assist 46 SL Insecticida Orgánico Sales Potasicas de Ácidos Grasos (goc-10055) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pesti Nova Repelente insecticida compuesto a base de productos orgánicos Bioinsecticida Líquido Emulsionable (grb-8705) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tripsz It Insecticida biológico-botánico para el control de trips Bioinsecticida Líquido Soluble (grb-8706) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aka-X-Empt Acaricida Orgánico Bioacaricida Líquido Emulsionable (grb-13373) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pestilent (SINERGISTA) (grb-14008) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Atzingao Ovicida-Acaricida de amplio espectro Líquido Emulsionable (grb-15031) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Probo 18 IF Insecticida de amplio espectro de acción LÍQUIDO SOLUBLE (grb-16694) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Probo 24 FF Fungicida orgánico inductor de resistencia LÍQUIDO SOLUBLE (grb-16695) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Fertilizers, Blended

Fulvimax Alga+ Mejorador Orgánico y Biológico de Suelos Líquido Soluble (grb-3785) 1

## Crop Products: Fertilizers, Blended with micronutrients

K boron Ca Fertilizante foliar de resistencia y calidad Bioestimulante Líquido Concentrado (grb-7455) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

OrganiGrow tres Fertilizante foliar para crecimiento inicial de frutos Bioestimulante Líquido Soluble (grb-7468) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Organiflush uno Fertilizante foliar para prefloración. Bioestimulante Líquido Soluble (grb-7470) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

OrganiMaster cuatro Fertilizante foliar para maduración y calidad de frutos. Bioestimulante Líquido Soluble (grb-7471) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Stoma-OR Bio estimate Orgánico-Osmoregulador Líquido Emulsificable (grb-14083) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ViraBlock Orgánico Bioestimulante Promotor de resistencia vegetal Líquido Soluble (grb-15032) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProBo 53VF Bioestimulante Líquido Ligeramente Viscoso (grb-15869) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fertilizers, Blended with micronutrients, Fertilizers, Blended with synthetic magnesium sulfate

Multigreen L Fertilizante complejo con micronutrientes quelatados - Bioestimulante Líquido Soluble (grb-3788) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fertilizers, Blended with micronutrients, Magnesium Sulfate – Allowed With Restrictions

Organiflor dos Fertilizante foliar para amarre y cuajado de frutos. Bioestimulante Líquido Soluble (grb-7460) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fish Products, Liquid, Stabilized

Biocharger Bioestimulante Orgánico Líquido Soluble (grb-3782)

## Crop Products: Fungicides

RoyaOut Fungicida Orgánico Microbiológico Líquido Emulsionable (grb-4963) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

## Crop Products: Microbial Pesticides

Best Ultra F Fungicida Microbiológico de Protección Foliar Inductor de Resistencia Sistemática Vegetal Líquido Soluble (grb-3779) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Best Ultra S Fungicida Microbiológico de Amplio Espectro para Enfermedades de Raíz Líquido Soluble (grb-3780) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Biobacter O Bactericida inductor de resistencia - Biobactericida Líquido soluble (grb-3781) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Larbiol 2X Larvicida Biológico Bioinsecticida Líquido Soluble (grb-3786) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MildOut Plus Biofungicida Para el Control de Mildius y Cenicillas Líquido Soluble (grb-3787) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Trichobiol Agente de Biocontrol de Hongos Fitopatógenos Líquido Soluble (grb-3790) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nemaxxion Biol Nematicida Biológico de Amplio Espectro Bionematicida Líquido Soluble (grb-4962) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BacterGreen Bactericida inductor de resistencia-Biobactericida Líquido Soluble (grb-8294) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NemaGreen Nematicida biológico de amplio espectro Bionematicida Líquido Soluble (grb-8295) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Larvi Out Larvicida Biológico Bioinsecticida Líquido Soluble (grb-8704) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Microbial Products

Entomaxx 5x2 Insecticida Biológico-botánico de Amplio Espectro Líquido Emulsionable (grb-7446) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Amino Acids

Gründag Organoamin (gdi-4809)

## Crop Products: Biopesticides

Gründag Quiyajo (gdi-5892) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Botanical Pesticides

Gründag QSD Insecticida Natural (gdi-4728) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Copper Sulfate

Gründag Glucob Plus (gdi-16398) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Fertilizers, Blended

Gründag Alamar Fertilizante A Base De Algas Marinas (gdi-4569)

Gründag Fitoactiv Amarre de Flores (gdi-4570)

Gründag Fitoamin Plus Aminoácidos (gdi-4571)

Gründag Fitocuaje Fertilizante para Floreación y Cuajado de Hortalizas (gdi-4572)

Gründag Raigreen Fertilizante (gdi-4573)

## Crop Products: Fungicides

B 1537 Bio-Fungicide (gdi-7508) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

## Crop Products: Microbial Pesticides

Gründag BBQ Bio Insecticide (gdi-7050) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Metalabsa Bio-Insecticide (gdi-7509) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Labasa BT Bio-Insecticide (gdi-7511) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Nematicides

Gründag Quiyapulus (gdi-4729) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Gründag PFQ Nematicida Biológico (gdi-5548) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Gründag NemaCare Bio-Nematicide (gdi-6726) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Gründag NemaGro Bio-Nematicide (gdi-6727) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Trichoderma spp.

Agroderma Bio-Fungicide (gdi-7510) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenPlanet Medi One 4-3-3 1Part Nutrient System (hit-8582) n.l  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

### Crop Products: Copper Sulfate

HCT WaterSOLV Curative ORGANIC Copper Bearing Water Treatment & Soil Remediation Solution for Agronomy Flood, Topical, Sprinkler, Tape, Drip -- Agriculture, Tuft, Ornamental, Landscape Grade 0-0-0 (hct-15405) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Hydrogen Peroxide

HCT WaterSOLV BC Organic (hct-16418) 1  
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

### Crop Products: Adjuvants, for use in pesticides

Suppressor 3112 (hyc-8365) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Suppressor ORG60 (hyc-13110) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Suppressor 3101 (hyc-16671) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Crop Products: Peracetic Acid/Peroxyacetic Acid

HYDROXYCIDE 527 Agricultural Use Fungicide\* · Bactericide\* · Algaecide · Cleaner · Deodorizer (hyc-15903) 1  
For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

### Processing Products: Chlorine Materials

San-I-King, No. 451 Liquid Sodium Hypochlorite (hyc-1129) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Processing Products: Defoamers

Suppressor ORG60 (hyc-10266)  
Suppressor ORG80 (hyc-10267)

### Processing Products: Peracetic Acid/Peroxyacetic Acid

Hydroxysan Plus Cleaner · Disinfectant · Food Contact Surface Sanitizer (hyc-6369) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

HydriShield PA 22 HP (hyc-11517) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

HydriShield PA 15 LP (hyc-11774) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

HydriShield PA 22 LP (hyc-11805) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

HydriShield PA 15 HP (hyc-11902) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Aquatic Plant Products, synthetically extracted

Idai Almar (ida-7645)

Crop Products: Biopesticides

Idai Nature Garland (ida-15240) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Idai Nature Thymic (ida-15241) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Idai Nature Cinnaction (ida-15242) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

System Max (ida-4639) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nemacem Nematicida Agrícola Concentrado Soluble (ida-4852) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Spider Max (ida-5603) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Naturdai Mim Fungicida Agrícola  
Concentrado Soluble (ida-6284) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Vegex Kuneka (ida-6342) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**vegex Clean Soil Nematicida Agrícola  
Concentrado Soluble (ida-6426) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Militar Plus Insecticida Agrícola Concentrado Soluble (ida-7328) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**vegex White Fly Insecticida Agrícola  
Concentrado Soluble (ida-7646) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Santem (ida-11518) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Temocrop (ida-11703) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Calcium Carbonate**

**Idai CA Soil (ida-7472)**

**CA ORGANIC (ida-8452)**

**Crop Products: Copper Products**

**idainature Idai Troya (ida-13571) 1**

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Copper Sulfate**

**System Cu Bactericida Agrícola  
Concentrado Soluble (ida-5605) 1**

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Fungicides**

**Equi Max (ida-5602) 1**

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Naturdai Equibasic (ida-6341) 1**

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Crop Products: Iron Products**

**Idai Algafer (ida-7698) 1**

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Micronutrients**

**Bioaluminium Fertilizante Líquido Inorgánico (ida-4851) 1**

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**idai Brotaverd Fertilizante Inorgánico Líquido (ida-6283) 1**

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Naturdai Bio-S (ida-8261) 1**

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**BIOAZUFRE (ida-8451) 1**

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Molasses**

**Idai Fertireg (ida-7474)**

**FULVIORGANIC (ida-8453)**

**Crop Products: Potassium Chloride**

**Idai K Plus (ida-10662) 1**

Must be applied in a manner that minimizes chloride accumulation in the soil.

Crop Products: Botanical Pesticides

Scary Garlic Plus (asj-3372) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IAN METAGARLIC RP Insecticida Orgánico (asj-15709) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GARLIC MAX Organic Insecticide (asj-16570) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Cinnapro Natural Miticide (asj-3774) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IAN CINNAMO Acaricida Orgánico (asj-15711) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IAN BAJA NEEM Insecticida Orgánico (asj-15721) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CINNAPLUS Natural Miticide (asj-16571) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Soap

KOCH Potassium Soap Pesticide and Acaricide (asj-3631) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

IAN KSOAP MB Jabón Potásico Insecticida y Acaricida Orgánico (asj-15710) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

KO PLUS Potassium Soap Pesticide and Acaricide (asj-16572) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

### Processing Products: Chlorine Materials

QuimiTech BIOCLOR Limpiador

Concentrado a Base de Hipoclorito de Sodio (iqt-13784) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Processing Products: Peracetic Acid/Peroxyacetic Acid

QuimiTech Zone 15 (iqt-10475) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

### Crop Products: Copper Sulfate

Mastercop Bactericide/Fungicide (iis-7534) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Botanical Pesticides

**AgroIQC INTERGOBER Extracto de gobernadora (Larrea tridentata) Fungicida y Bactericida Botánico/Líquido Soluble** (iqc-9008) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**AgroIQC INTERNEEM-A Extracto de Neem + Extracto de Canela Insecticida Botánico/Concentrado Emulsionable** (iqc-9009) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Agro IQC INTERPIRET Extracto de Tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable** (iqc-10434) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CANEEMA 70EC INSECTICIDA-ACARICIDA-BOTANICO EXTRACTO DE NEEN+EXTRACTO CANELA** (iqc-10744) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**PIRETAGE 90EC INSECTICIDA-BOTANICO EXTRACTO DE TAGETES** (iqc-10745) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**EXTRAGOBER 95SL FUNGICIDA-BACTERICIDA-BOTANICO EXTRACTO DE GOBERNADORA** (iqc-10820) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Sulfate

**AgroIQC COPPERSYST Sulfato de Cobre Pentahidratado Fungicida Agrícola/Solución Acuosa** (iqc-13370) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Humic Acids – alkali extracted

**HUMIC 12 ACIDOS HÚMICOS Fertilizante Bioactivador-Catalizador-Estimulante/Líquido** (iqc-16578)

**AgroIQC PROTEIN ORGÁNICO ACIDOS HÚMICOS Fertilizante Bioactivador-Catalizador-Estimulante/Líquido** (iqc-16579)

### Crop Products: Microbial Pesticides

**AgroIQC BACILLUS HD Bacillus Thuringiensis Insecticida y/o Acaricida Agrícola/Polvo Humectable** (iqc-16741) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Premium Phoster Phosphate Solubilizing Bio-Fertilizer (ipl-7805)

## Crop Products: Microbial Pesticides

Almite Biological Insecticide (ipl-7801) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bactvipe Biological Fungicide (ipl-7802) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bioharz Biological Fungicide (ipl-7803) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nematofree Biological Pesticide (ipl-7804) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sanjeevni Bio Control Solution (ipl-7806) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Adjuvants, for use in pesticides

pht Ad-Here SP Deposition Aid (jrs-3825) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Plant Health Technologies Vestis Silicone Surfactant (jrs-6537) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Plant Health Technologies Elimino Antifoaming Agent/Defoaming Agent (jrs-6780) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Simplot Plant Health Technologies SS88 Silicone Surfactant (jrs-14340) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Crop Products: Calcium Chloride

pht Soilcal Soil and Water Amendment (jrs-0866) 1  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

### Crop Products: Copper Sulfate

Water Guard WG 2500  
Algaecide/Bactericide (jrs-6782) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Elemental Sulfur

pht® Dryout Dust (jrs-4758) 1  
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Hydrogen Peroxide

Water Guard WG 4500 (Antimicrobial Solution) (jrs-15559) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

## Crop Products: Oils, Horticultural

pht 440 Supreme Spray Oil (jrs-2883) 1

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Simplot pht 415 Supreme Spray Oil Insecticide - Miticide 415 Type Oil (jrs-14336) 1

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Peracetic Acid/Peroxyacetic Acid

Water Guard WG 4000 (Antimicrobial Solution) (jrs-15557) 1

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

## Processing Products: Peracetic Acid/Peroxyacetic Acid

Water Guard WG 4000 (Antimicrobial Solution) (jrs-15558) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Water Guard WG 4500 (Antimicrobial Solution) (jrs-15560) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### Crop Products: Herbicides

Weed Zap™ (jhb-0157) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Humates

HUMAX 95-WSG (jhb-10764)

#### Crop Products: Humic Acids – alkali extracted

Humax® (jhb-9891)

HUMAX-L (jhb-10765)

#### Crop Products: Iron Products

Biomin Iron (jhb-1692) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Biomin Iron Powder 5-0-0 (jhb-6875) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Ferrous Sulfate (jhb-7400) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Crop Products: Limestone

Limestone (jhb-7401)

#### Crop Products: Magnesium Sulfate – Allowed With Restrictions

Biomin Magnesium (jhb-0015) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Biomin Magnesium Powder 5-0-0 (jhb-6876) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

JH Biotech Magnesium Sulfate Anhydrous (jhb-6879) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

#### Crop Products: Magnesium Sulfate – Allowed With Restrictions, Micronutrients

Biomin Booster 126 (jhb-0020) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Biomin Booster 153 (jhb-0021) n1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Promot® MZM Organic Starter Fertilizer (jhb-9552) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

BIOMIN 446-SP (jhb-10761) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Biomim 235-L (jhb-11128) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Biomim 454-SP (jhb-13459) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Biomim 534-SP (jhb-13470) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Nutrimin 534 Special (jhb-15011) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Crop Products: Manganese Products

Biomim Manganese (jhb-0016) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Biomim Manganese Powder 5-0-0 (jhb-6877) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Manganese Sulfate (jhb-7402) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Microbial Inoculants

Mycormax Biological Inoculum (jhb-6045)

BIOACT SD Stubble Digester (jhb-10759)

SEEDUP Microbial Inoculant for Seed

Treatment (jhb-10760)

SOLUPHOS SP Microbial Inoculant Powder (jhb-10766)

Fulzyme Plus-SP (jhb-11129)

Fulzyme-SP (jhb-11130)

### Crop Products: Microbial Products

Promot® Plus Biological Growth Promoter (jhb-0119)

Fulzyme® Plus Natural Growth Factor (jhb-1331)

### Crop Products: Micronutrients

BIOMIN 464-SP (jhb-10762) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Nematicides

NemaOut (jhb-12748) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Potassium Sulfate

Big K Sulfate of Potash 0-0-50 (jhb-5987)

### Crop Products: Wetting Agents

Natural Wet® Wetting Agent (jhb-0752)

### Crop Products: Zinc Products

Biomim Zinc (jhb-0018) 1

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Biomim Zinc Powder 5-0-0 (jhb-6878) 1

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Zinc Sulfate (jhb-7403) 1

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Livestock Products: Copper

Buffermin Copper Protein Amino Acids

Chelated Copper (jhb-11825) 1

For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Livestock Products: Iron

Buffermin Iron Protein Amino Acids

Chelated Iron (jhb-11826) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

### Livestock Products: Manganese

Buffermin Manganese Protein Amino

Acids Chelated Manganese (jhb-11827) 1

For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Livestock Products: Minerals

Bio4 PLUS Methionine Complexed Minerals (jhb-8622) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

### Livestock Products: Selenium Yeast

BUFFERMIN SELENIUM YEAST (jhb-8623) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

### Livestock Products: Yucca

Odor Buster Natural Odor Reducer (jhb-8161)

### Livestock Products: Zinc

Buffermin Zinc Methionine (jhb-7790) 1

For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Buffermin Zinc Protein Amino Acids

Chelated Zinc (jhb-11828) 1

For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Crop Products: Boron Products, Copper Products, Manganese Products, Potting Soil – Allowed With Restrictions, Zinc Products

Jiffy® Natural & Organic All-Purpose Potting  
Mix (jip-5264) 1

Refer to specific ingredient categories for  
applicable use restrictions. Must not be used  
as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.

Jiffy® Natural & Organic Seed Starting Jiffy-  
Mix® (jip-5265) 1

Refer to specific ingredient categories for  
applicable use restrictions. Must not be used  
as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be

### Crop Products: Botanical Pesticides

KeyPlex Ecotrol Plus Insecticide/Miticide

Emulsifiable Concentrate (key-5999) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

KeyPlex Ecotrol IC-3 (key-6960) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

KeyPlex Sporan® EC<sup>2</sup> Fungicide (key-7232)

1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

KeyPlex Ecotrol EC Insecticide/Miticide

Emulsifiable Concentrate (key-7631) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sporan EC Fungicide (key-10145) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sporatec Mezcla de Aceites Vegetales

Fungicida agrícola/Concentrado

Emulsionable (key-10542) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Keyplex ECOTEC Mezcla de Aceites

Vegetales Insecticida agrícola / Concentrado

Emulsionable (key-13907) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

KeyPlex Ecotrol EC Mezcla de Aceites

Vegetales Insecticida Agrícola / Concentrado

Emulsionable (key-15067) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Keyplex Sporan 38 EC Fungicida-Botánico

(key-15068) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Keyplex Ecotrol 17 EC Insecticida, Acaricida

- Botánico (key-15072) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

KeyPlex AWP- Insecticide/Miticide (key-

15861) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Processing Products: Botanical Pesticides

KeyPlex Ecotrol Plus Insecticide/Miticide

Emulsifiable Concentrate (key-6921) 1

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

KeyPlex Ecotrol IC-3 (key-6961) 1

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

KeyPlex EcoZAP Activator Mosquito Control

Synergist/Activator Concentrate (key-7334)

1

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

Fortiferm Blanc Yeast Rehydration Nutrient  
(lal-11024) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

## Processing Products: Yeast

Opti-White® (lal-1245) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

Opti-Red® (lal-1246) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

NOBLESSE For red wines, rosé, or white  
Yeast nutrient (lal-2039) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

GO-FERM Yeast rehydration nutrient (lal-  
2040) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

FERMAID O Yeast nutrient for alcoholic  
fermentation (lal-2042) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

NUTRIENT VIT NATURE Yeast nutrient for  
alcohol fermentation (lal-2581) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

Reduless® (lal-3292) 1

When used as food or a fermentation agent  
in products labeled as "organic," yeast must  
be organic if its end use is for human  
consumption. Nonorganic yeast may be used  
when organic yeast is not commercially  
available.

#### ML RedBoost (lal-10768) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

#### Opti'Malo Blanc (lal-10769) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

#### Opti-Mum Red (lal-10771) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

### Processing Products: Yeast Autolysate

**NUTRIENT VIT END** Yeast Nutrient to ensure a good end of alcoholic fermentation (lal-2580) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

#### OptiMUM WHITE® For white wines (lal-2582) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

#### Opti-Lees® (lal-2970) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

#### GLUTASTAR For white and rosé wines (lal-15304) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

#### abvickers Yeastlife O Yeast Nutrient for Specialized Alcoholic Fermentations (lal-15404) 1

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Crop Products: Bacillus thuringiensis

Monterey B.t. Biological Insecticide (lgp-2796) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey B.t. RTU (Ready-To-Use)

Biological Insecticide (lgp-4376) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Monterey Liquid Copper Fungicide RTU (lgp-6603) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Ferric Phosphate

Monterey Sluggo® (lgp-0598) 1

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Sluggo Plus Insect, Slug & Snail Pellets (lgp-2870) 1

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Sluggo Maxx Brand (lgp-12051) 1

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients

Monterey Dr. Iron® (lgp-0268) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions

Monterey Epsom Salts Magnesium Sulfate (lgp-0376) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Microbial Pesticides

Monterey Complete Disease Control Brand RTU Ready-to-Use Biofungicide/Bactericide (lgp-6454) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Complete Disease Control Brand Aqueous Suspension

Biofungicide/Bactericide (lgp-6455) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Monterey Fruit Tree Spray Plus Broad Spectrum Insecticide, Fungicide, and Miticide (lgp-3720) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Nematicides

Monterey Nematode Control (lgp-3282) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

Monterey Horticultural Oil Fungicide, Insecticide, & Miticide (lgp-2574) 1

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Monterey Bug Buster-O (lgp-4823) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Soap

Monterey Garden Insect Spray RTU (lgp-5689) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Monterey Insecticidal Soap RTU (lgp-14034) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

## Crop Products: Spinosad

Monterey Garden Insect Spray (lgp-0034) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Fertilizers, Blended with micronutrients, Manure, raw, uncomposted

LGM Soil Amendments Organic & Natural 2-in-1 Planting Mix & Mulch (lgm-15598) 1

May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

LGM Soil Amendments Organic & Natural Success (lgm-15791) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

## Crop Products: Iron Products, Potting Soil – Allowed With Restrictions

LGM Soil Amendments Organic & Natural Potting Soil (lgm-15597) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

## Crop Products: Microbial Inoculants

ENDOVIT Inoculante Endomicorrícico Polvo Humectable (ldg-13772)

Dendrovit Inoculante Ectomicorrícico Granulado (ldg-14075)

Fertibac Fertilizante biológico Líquido (ldg-16034)

## Crop Products: Microbial Pesticides

Gliocide Fungicida Biológico Polvo Mojable (ldg-5698) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Mixene Fungicida Biológico Polvo Mojable (ldg-5699) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Trichoderma spp.

Esporalis Fungicida Biológico Polvo Mojable (ldg-5314) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Adjuvants, for use in pesticides

Argosy-O Rain-fast, Water Soluble Multi-Purpose Adjuvant (lic-12535) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

## Crop Products: Biopesticides

Varnimo Technical (lic-11375) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Varnimo ST (lic-11421) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Varnimo IF (lic-11422) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Copper Sulfate

Along-Life Algaecide/Bactericide\* (lsg-5470) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RiceGuard Algaecide (lsg-8205) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RiceTec Algaecide/ Bactericide (lsg-13703) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agri-Life Fungicide/Bactericide/Algaecide (Isq-14904) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. ## Crop Products: Copper Sulfate

Mastercop Bactericide/Fungicide (ada-10056) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Botanical Pesticides

REMCA Organics DuoGard Insecticide/Fungicide (mav-13551) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Calcium Chloride, Zinc Products

GreenFurrow Organics 8% Calcium (mav-14146) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Crop Products: Copper Products, Zinc Products

Mar Vista Resources GreenFurrow Organics Copper 5% (mav-13699) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Crop Products: Elemental Sulfur

Mar Vista Resources Dusting Sulfur (mav-9685) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Mar Vista Resources GreenFurrow Organics Dusting Sulfur (mav-14758) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fertilizers, Blended with micronutrients

Mar Vista Resources GreenFurrow Organics Nutri-Drive (mav-15446) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Humic Acids – alkali extracted

Mar Vista Resources GreenFurrow Organics Humic Acid 12% (mav-12717)

Mar Vista Resources GreenFurrow Organics Humic Acid 6% (mav-12790)

## Crop Products: Iron Products, Zinc Products

Mar Vista Resources GreenFurrow Organics Iron 5% (mav-13700) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

## Crop Products: Magnesium Sulfate – Allowed With Restrictions, Zinc Products

Mar Vista Resources GreenFurrow Organics Magnesium 3% (mav-14367) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

## Crop Products: Manganese Products, Zinc Products

Mar Vista Resources GreenFurrow Organics Manganese 6% (mav-14368) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

## Crop Products: Oils, Horticultural

VistaSpray 440 Spray Oil (mav-10344) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VistaSpray 415 Spray Oil (mav-10592) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Summer Oils

Mar Vista Resources GreenFurrow Organics Vista Clear Spray Oil II (mav-13598) 1  
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in combination with permitted active pesticidal ingredients, excluding EPA 25(b) exempt pesticides.

## Crop Products: Wetting Agents

GreenFurrow Organics Root-Active (mav-12433)

GreenFurrow Organics Soil Rx (mav-12512)

## Crop Products: Zinc Products

GreenFurrow Organics PR+ (mav-13377) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

MarVista Resources GreenFurrow Organics PR-A+ 0.1-0-0.1 (mav-13534) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Mar Vista Resources GreenFurrow Organics Zinc 6.5% (mav-13701) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Mar Vista Resources GreenFurrow Organics MVR+ (mav-15369) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Mar Vista Resources GreenFurrow Organics MVRA+ (mav-15370) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

**Crop Products: Botanical Pesticides**

**Regalia® Biofungicide (moi-1575) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® Maxx Biofungicide Concentrate  
(moi-1711) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® PTO Biofungicide (moi-3854) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® Rx Biofungicide (moi-3855) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia 12 Biofungicide (moi-5307) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**FMC Regalia Maxx Extracto de Reynoutria  
sachalinensis Fungicida / Suspensión  
Concentrada (moi-5446) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Reysana Biofungicide (moi-10057) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia CG Biofungicide (moi-10242) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia Maxx 20 SC Fungicida-Botánico (moi-11396) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-106 12 Biofungicide (moi-12704) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Marrone Bio Innovations PACESETTER (moi-13975) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Hydrogen Peroxide, Peracetic Acid/Peroxyacetic Acid

EVOCADE A Fungicide, Bactericide, Algicide for Agricultural Uses (moi-13805) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers. For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

Marrone Bio Innovations Jet-Ag® 5 Fungicide, Bactericide, Algicide for Agricultural Uses (moi-14662) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers. For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

### Crop Products: Microbial Pesticides

MBI-203 WDG (moi-6266) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo WDG Bioinsecticide (moi-7140) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo CG Bioinsecticide (moi-10241) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo WG Biological Insecticide-Miticide Dispersible Granular Biological Agent (WG) (moi-16309) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Products

Venerate Bioinsecticide (moi-3903) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Venerate™ XC Bioinsecticide (moi-4939) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Majestene Bionematicide (moi-6393) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-206 EP (moi-7141) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Venerate CG Bioinsecticide (moi-10244) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Zelto (moi-10245) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Processing Products: Peracetic Acid/Peroxyacetic Acid

Marrone Bio Innovations Jet-Oxide® 15

(Peroxyacetic Acid Solution) (moi-14664) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Marrone Bio Innovations Jet-Oxide® 5

(Peroxyacetic Acid Solution) (moi-14665) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

## Crop Products: Acid Activators for Chlorine Dioxide

MCHEM HYDROFLO CLEANER & PROCESS WATER TREATMENT (mce-13486) 1

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

## Crop Products: Chlorine Dioxide

MCHEM MClean 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (mce-13485) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

## Crop Products: Hydrogen Peroxide

OxiGreen (Antimicrobial Solution) (mce-5411) 1

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

## Crop Products: Peracetic Acid/Peroxyacetic Acid

Oxi Tech 15 (Antimicrobial Solution) (mce-5413) 1

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

## Processing Products: Peracetic Acid/Peroxyacetic Acid

OxiGreen (Antimicrobial Solution) (mce-5412) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Oxi Tech 15 (Antimicrobial Solution) (mce-5414) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

### Crop Products: Acid Activators for Chlorine Dioxide

FreshFlo 100 Acid Activators for Chlorine  
Dioxide (mix-8627) 1  
Must only be used for the generation of  
chlorine dioxide. Use of resulting chlorine  
dioxide must comply with 205.601(a)(2)(ii).  
Residual chlorine levels in the water in direct  
crop contact (when used pre-harvest) or as  
water from cleaning irrigation systems  
applied to the soil should not exceed the  
maximum residual disinfectant level under  
the Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide), except that  
chlorine products may be used in edible  
sprout production according to EPA label  
directions. May be used up to maximum  
labeled rates for disinfecting and sanitizing  
equipment or tools. No intervening event is  
necessary before equipment is used in  
contact with organic crops.

### Livestock Products: Acid Activators for Chlorine Dioxide

FreshFlo 100 Acid Activators for Chlorine  
Dioxide (mix-8628) 1  
Must only be used for the generation of  
chlorine dioxide. Use of resulting chlorine  
dioxide must comply with 205.603(a)(10)(ii).  
Chlorine products may be used up to  
maximum labeled rates for disinfecting and  
sanitizing equipment or tools (including dairy  
pipelines and tanks). Residual chlorine levels  
in the water in direct contact with food  
products or animals shall not exceed the  
maximum residual disinfectant limit under the  
Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide). May be used  
up to maximum labeled rates for sanitizing  
equipment or tools. Label instructions  
should be followed regarding requirements  
for rinsing or not rinsing prior to the  
equipment's next use.

### Crop Products: Fertilizers, Blended with micronutrients, Potassium Chloride, Sodium Nitrate (Chilean Nitrate)

Miracle-Gro Performance Organics All Purpose Plant Nutrition 11-3-8 (mgp-10996) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must be applied in a manner that minimizes chloride accumulation in the soil. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Miracle-Gro Performance Organics Edibles Plant Nutrition 9-4-12 (mgp-12140) 1  
Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Miracle-Gro Performance Organics Blooms Plant Nutrition 8-8-8 (mgp-12141) 1  
Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Crop Products: Peracetic  
Acid/Peroxyacetic Acid

NEOGEN AquaPrime Peraside 15 (nec-  
14523) 1

For disinfecting facility, processing  
equipment, seed and asexually propagated  
planting material. For use in hydrogen  
peroxide formulations as allowed in  
205.601(a) at a concentration of no more  
than 6% as indicated on the product label.

Livestock Products: Acid Activators for  
Chlorine Dioxide

BioSentry AquaPrime Activator Chlorine  
Dioxide Activator and Animal Drinking Water  
Acidifier (nec-13363) 1

Must only be used for the generation of  
chlorine dioxide. Use of resulting chlorine  
dioxide must comply with 205.603(a)(10)(ii).  
Chlorine products may be used up to  
maximum labeled rates for disinfecting and  
sanitizing equipment or tools (including dairy  
pipelines and tanks). Residual chlorine levels  
in the water in direct contact with food  
products or animals shall not exceed the  
maximum residual disinfectant limit under the  
Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide). May be used  
up to maximum labeled rates for sanitizing  
equipment or tools. Label instructions  
should be followed regarding requirements  
for rinsing or not rinsing prior to the  
equipment's next use.

Livestock Products: Chlorine Dioxide

NEOGEN AquaPrime NeoKlor Chlorine  
Dioxide Precursor For Microbial Control In  
Water And Wastewater (nec-13361) 1  
Chlorine products may be used up to  
maximum labeled rates for disinfecting and  
sanitizing equipment or tools (including dairy  
pipelines and tanks). Residual chlorine  
levels in the water in direct contact with food  
products or animals shall not exceed the  
maximum residual disinfectant limit under the  
Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)

## Crop Products: Adjuvants, for use in pesticides

NB-ACTIVATOR Adherente Dispersante  
Penetrante (nbt-12611) 1

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

## Crop Products: Botanical Pesticides

NB TRIPER (nbt-10272) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-BIONEMIC Extracto de Marigold

Nemática - Solución Acuosa (nbt-14954) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DEFENDER-S (nbt-15164) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Chitin

NB-FUSAR (nbt-13120) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Copper Sulfate

NB FUNBAC 27 S Fungicida/Concentrado  
Emulsionable (nbt-10268) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Microbial Pesticides

FOSFICUR (nbt-13016) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-GLYCOM Agente de Control Biológico -  
Polvo Humectable (nbt-14468) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-RIZOVER Agente de Control Biológico -  
Polvo Humectante (nbt-14469) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Microbial Products

NB NATU-CROP Insecticida Biológico  
Agrícola (nbt-10269) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB QUARECZ Agente de Control Biológico -  
Polvo Humectable (nbt-10270) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB TIME CONTROL Biofungicida (nbt-10271) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB Z-CROP Biofungicida (nbt-10273) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Copper Sulfate

ICC Ionic Copper Concentrate Liquid Concentrate Natural-Based Contact Fungicide & Bactericide (ocn-5303) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Ocion PT81 Algicide/Bactericide/Fungicide (ocn-5305) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. ### Crop Products: Coppers, fixed

KALMOR Fungicide/Bactericide Dry

Flowable (ohp-11389) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

GROTTO Flowable Liquid Copper Fungicide (ohp-13643) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Herbicides

FireWorxx Herbicide (ohp-11781) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Pesticides

Triathlon BA Aqueous Suspension

Biofungicide/Bactericide (ohp-6962) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ANCORA Microbial Insecticide (ohp-8735) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Neem and Neem Derivatives

Azatin® O Biological Insecticide (ohp-3970) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Triact® 70 Fungicide/Insecticide/Miticide (ohp-7175) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Pyrethrum

Pycana Insecticide/Miticide (ohp-11175) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Soap

KOPA Insecticidal Soap

Insecticide/Miticide/Fungicide (ohp-8736) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

### Crop Products: Copper Products

OB Old Bridge Chemicals Copper Sulfate (olb-3792) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Copper Sulfate

OB Old Bridge Chemicals Copper Sulfate Fine Crystals (olb-14418) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Zinc Products

OBC Old Bridge Chemicals Inc. Zinc Sulfate (olb-3954) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Livestock Products: Copper

OB Old Bridge Chemicals Emerald-C (olb-4649) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Livestock Products: Copper Sulfate

OB Old Bridge Chemicals Copper Sulfate (olb-4645) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.  
OB Old Bridge Chemicals Copper Sulfate Feed Grade (olb-4646) 1  
For use as a topical treatment, external parasiticide or local anesthetic as applicable. May only be used in organic livestock production if the requirements of 205.238 are met.

### Livestock Products: Zinc Sulfate

OBC Old Bridge Chemicals Inc. Zinc Sulfate (olb-3955) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Crop Products: Copper Sulfate

CUBIDEX (pef-14370) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Copper Sulfate, Seed Treatments – Synthetic

Manage (phb-14488) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Succeed Seed Treatment (phb-15505) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. ### Crop Products: Botanical Pesticides

proan ara-3 (pan-10381) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Sulfate

proan Cupro-an Fungicida (pan-13046) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Products

PQP PROFESSIONAL COPPER SULFATE PENTAHYDRATE (pqp-15216) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Iron Products

PQP PROFESSIONAL FERROUS SULFATE HEPTAHYDRATE (pqp-14030) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Magnesium Sulfate – Allowed With Restrictions

PQP PROFESSIONAL MAGNESIUM SULFATE HEPTAHYDRATE (pqp-15215) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Livestock Products: Copper Sulfate

PQP PROFESSIONAL COPPER SULFATE PENTAHYDRATE (pqp-15217) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

ProKure V Cultivator Liquid Mold & Mildew Eliminator (pks-7120) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

**ProKure V Liquid**  
Deodorizer/Disinfectant/Fungicide (pks-7136) 1  
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

PLMineral Manganese Sulphate  
Monohydrate (pck-12916) 1  
Must not be used as an herbicide, defoliant  
or desiccant. Micronutrient deficiency must  
be documented by soil or tissue testing or  
other documented and verifiable method as  
approved by a certifying agent.

PLMineral Zinc Sulphate Monohydrate (pck-12914) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

#### Livestock Products: Manganese

PLMineral Manganese Sulphate Monohydrate (pck-12917) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

#### Livestock Products: Zinc

PLMineral Zinc Sulphate Monohydrate (pck-12915) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

MAXCHELAT/Fe Granulated Iron Glycine

Complex Feed Ingredient For Livestock And

Poultry (psd-15592) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

### Livestock Products: Magnesium

MAXCHELAT/Mg Granulated Magnesium

glycine complex Feed ingredient for all

animal species (psd-15885) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

### Livestock Products: Manganese

MAXCHELAT/Mn Granulated Manganese

Glycine Complex Feed Ingredient For

Livestock And Poultry (psd-15591) 1

For use as feed additives and supplements.

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Livestock Products: Zinc

MAXACTIVAT/Zn Feed ingredient for

livestock (psd-15588) 1

For use as feed additives and supplements.

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

MAXCHELAT/Zn Granulated Zinc Glycine

Complex Feed Ingredient For Livestock And

Poultry (psd-15590) 1

For use as feed additives and supplements.

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

MAXLYSINAT/Zn Granulated Zinc lysine

complex/Feed Ingredient for livestock and

poultry (psd-15887) 1

For use as feed additives and supplements.

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

MAXIONAT/Zn Zinc methionine

complex/Feed ingredient for livestock and

poultry (psd-15888) 1

For use as feed additives and supplements.

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Crop Products: Coppers, fixed

Technical Copper Oxychloride (qin-5966) 1  
For plant disease control. May only be used  
if the requirements of 205.206(e) are met,  
which requires the use of preventive,  
mechanical, physical, and other pest, weed,  
and disease management practices. Must  
be used in a manner that minimizes copper  
accumulation in the soil.

### Crop Products: Elemental Sulfur

Defend DF Micronized Wettable Sulphur  
WDG (Water Dispersible Granule) (qin-4443)  
1

For use as plant disease control, or as an  
insecticide (including acaricide or mite  
control). For use as slug and snail bait. May  
only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

### ACOIDAL Fungicide-Miticide Micronized Wettable Sulphur WDG (Water Dispersable Granule) (qin-4634) 1

For use as plant disease control, or as an  
insecticide (including acaricide or mite  
control). For use as slug and snail bait. May  
only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Sulphur Technical For Manufacturing  
Fungicide and Insecticide Products (qin-  
6623) 1

For use as plant disease control, or as an  
insecticide (including acaricide or mite  
control). For use as slug and snail bait. May  
only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Sulfur Dust (qin-12110) 1

For use as plant disease control, or as an  
insecticide (including acaricide or mite  
control). For use as slug and snail bait. May  
only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Nufarm Microsulf Azufre micronizado  
FUNGICIDA/GRÁNULOS DISPERSABLES  
(qin-12532) 1

For use as plant disease control, or as an  
insecticide (including acaricide or mite  
control). For use as slug and snail bait. May  
only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

### Crop Products: Botanical Pesticides

Lucava BioCinnamon extracto de canela  
Emulsión Aceite en Agua Insecticida y  
Acaricida (qmc-11480) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Grupo Lucava RetriX4 extracto de tagetes  
Concentrado Emulsionable Insecticida (qmc-  
11482) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

### Crop Products: Coppers, fixed

Grupo Lucava Magna-Bon CS 2005 sulfato  
de cobre pentahidratado Solución Acuosa  
Fungicida (qmc-13630) 1  
For plant disease control. May only be used  
if the requirements of 205.206(e) are met,  
which requires the use of preventive,  
mechanical, physical, and other pest, weed,  
and disease management practices. Must  
be used in a manner that minimizes copper  
accumulation in the soil.

### Crop Products: Coppers, fixed, Elemental Sulfur

Lucaflow Cu azufre elemental + oxicloruro  
de cobre Suspensión Acuosa Fungicida  
(qmc-11533) 1  
For plant disease control. May only be used  
if the requirements of 205.206(e) are met,  
which requires the use of preventive,  
mechanical, physical, and other pest, weed,  
and disease management practices. Must  
be used in a manner that minimizes copper  
accumulation in the soil. For use as plant  
disease control, or as an insecticide  
(including acaricide or mite control). For use  
as slug and snail bait. May only be used if  
the requirements of 205.206(e) are met,  
which requires the use of preventive,  
mechanical, physical, and other pest, weed,  
and disease management practices.

insecticide (including acaricide or mite  
control). For use as slug and snail bait. May  
only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

### Crop Products: Growth Regulators for Plants

Grupo Lucava Vitazyme Regulador de  
Crecimiento Tipo 1/ Líquido (qmc-13482) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

Grupo Lucava Vita Zuper Regulador de  
Crecimiento Tipo 1/ Líquido (qmc-13483) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

BRASINEXT RAÍCES Regulador de  
Crecimiento Tipo 1 Líquido (qmc-14657) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

BRASINEXT SEMILLAS Regulador de  
Crecimiento Tipo 1 Líquido (qmc-14658) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

BRASINEXT FRUTOS Regulador de  
Crecimiento Tipo 1 Líquido (qmc-14659) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

BRASINEXT CRECIMIENTO Regulador de  
Crecimiento Tipo 1 Líquido (qmc-14660) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

### Crop Products: Neem and Neem Derivatives

Lucava DiraXtra80 extracto de aceite de  
neem Concentrado Emulsionable Insecticida  
y Acaricida (qmc-11481) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

### Crop Products: Oils, Horticultural

Grupo Lucava Lucasoil aceite parafínico  
Emulsión Aceite Agua Insecticida-Acaricida  
(qmc-12698) 1  
For use as an insecticide (including acaricide  
or mite control) and for plant disease control  
as dormant, suffocating, and stylet (summer)  
sprays. May only be used if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Grupo Lucava Aguijón Azufre + Aceite  
Parafínico Suspensión Concentrada  
Insecticida - Acaricida - Fungicida (qmc-  
12738) 1  
For use as an insecticide (including acaricide  
or mite control) and for plant disease control  
as dormant, suffocating, and stylet (summer)  
sprays. May only be used if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

## Quimica Rosmar S.A. de C.V.

### Crop Products: Adjuvants, for use in pesticides

RESINAL  
Adherente/Penetrante/Prolongador  
Concentrado Emulsionable (quc-15179) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

RESINEX Concentrado Emulsionable  
Adherente/Penetrante/Prolongador (quc-16732) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Crop Products: Aquatic Plant Products, synthetically extracted

Algamar Nutriente Orgánico a Base de 5  
Algas Marinas Polvo (quc-13910)

### Crop Products: Bacillus thuringiensis

TURIGEN Bioinsecticida Polvo Humectable  
(quc-17090) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Beauveria spp.

EKO-VERIA Plaguicida Microbiano Polvo Humectable (quc-16400) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Biological Controls

EKO-MET Bioinsecticida Polvo Humectable  
(quc-17089)

### Crop Products: Biopesticides

EKO-LECANI Plaguicida Agrícola Polvo Humectable (quc-16399) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

EKO-SARIA Plaguicida Agrícola Polvo Humectable (quc-16401) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Botanical Pesticides

PROTEK Insecticida Orgánico Agrícola Concentrado Emulsionable (quc-13938) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Sulfate

PENTAMAX Fungicida y Bactericida Agrícola. Líquido (quc-16412) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Elemental Sulfur

SAGASUL Gránulos Finos  
Superdispersables Fungicida Y Acaricida Agrícola (quc-16411) 1  
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fertilizers, Blended with micronutrients, Iron Products, Magnesium Sulfate – Allowed With Restrictions, Manganese Products, Zinc Products

BIOFOL (TF) Regulador de Crecimiento Vegetal Inductor para la Floración y Fructificación. Líquido (quc-15732) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fertilizers, Blended with micronutrients, Magnesium Sulfate – Allowed With Restrictions

DOLCE Bioestimulante de la Coloración y Azúcares. Solución Acuosa (quc-15730) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Growth Regulators for Plants

Energer 30 (quc-16577) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Humic Acids – alkali extracted

Liberex 85% Liberador y Activador Fisiológico Cristales Solubles (quc-13939)

Nutri HUMUS 90 Ácidos Húmicos y Fúlvicos  
Cristales Ultrasolubles (quc-14104)  
HUMIESFERIC (quc-16574)  
Nutri-HUMUS Ácidos Húmicos y Fúlvicos  
Solución Acuosa (quc-16575)  
Hidro Liberex 45% Solución Acuosa  
Concentrada Liberador y Activador  
Fisiológico (quc-16576)

#### Crop Products: Saponins

Afin 8X Coadyuvante Nemastático Líquido  
Miscible (quc-15731)

#### Crop Products: Trichoderma spp.

EKO-TRIK Biofungicida Polvo Humectable  
(quc-17088) 1  
May only be used if the requirements of  
205.206(e) are met, which requires the use  
of preventive, mechanical, physical, and  
other pest, weed, and disease management  
practices.

#### Crop Products: Chlorine Dioxide

Dioxy ORG Desinfectante de Contacto  
Fungicida-Bactericida-Virucida-Alguicida  
(qca-14606) 1  
Residual chlorine levels in the water in direct  
crop contact (when used pre-harvest) or as  
water from cleaning irrigation systems  
applied to the soil should not exceed the  
maximum residual disinfectant level under  
the Safe Drinking Water Act (4 mg/L (4ppm)  
expressed as chlorine, 0.8 mg/L (0.8 ppm)  
expressed as chlorine dioxide), except that  
chlorine products may be used in edible  
sprout production according to EPA label  
directions. May be used up to maximum  
labeled rates for disinfecting and sanitizing  
equipment or tools. No intervening event is  
necessary before equipment is used in  
contact with organic crops.

#### Processing Products: Chlorine Dioxide

Dioxy ORG Desinfectante de Contacto  
Fungicida-Bactericida-Virucida-Alguicida  
(qca-14604) 1  
May be used in direct contact with post-  
harvest crop or food at levels approved by  
the FDA or the EPA for such a purpose.  
Such use must include a final rinse and  
residual chlorine levels in final rinse water  
shall not exceed the Maximum Residual  
Disinfectant Limit under the Safe Drinking  
Water Act, except that a final rinse is not  
required for use in FSIS inspected egg  
breaking facilities. When used as  
disinfectants and sanitizers for food contact  
surfaces, may be used up to maximum  
labeled rates and rinsing is not required  
unless mandated by the label use directions.  
May be used up to maximum labeled rates  
for disinfecting and sanitizing equipment or  
tools. No intervening event is necessary  
before equipment is used in organic  
production.

## Processing Products: Chlorine Materials

RMC Chlorguard Chlorinating Solution Liquid Bactericide • Disinfectant • Sanitizer • Deodorizer (rmc-6020) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Processing Products: Detergents

RMC F-196 Extra Heavy Duty Alkaline Foam Cleaner (rmc-6021) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC Power Foam ALS Chlorinated Alkaline Cleaner (rmc-6022) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC Enviro Care Sudsation (rmc-7131) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC Enviro Care Tough Job Cleaner (rmc-7132) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC FS Auto Dish Clean Aluminum Safe Alkaline Cleaner (rmc-7133) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC FS Heavy Clean High Foaming Degreaser (rmc-7134) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC Proxi Concentrate Hydrogen Peroxide-Based Multi Surface Cleaner (rmc-7135) 1

For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC Grease Kleen Heavy Duty Degreaser (rmc-10234) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

RMC F-120 Liquid Alkaline Cleaner (rmc-13536) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

#### Processing Products: Peracetic Acid/Peroxyacetic Acid

RMC EnviroGuard MP-2 Antimicrobial Solution (rmc-2719) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

RMC Enviroguard Sanitizer Antimicrobial Solution (rmc-3580) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Copper Products

Attest-O Plant Growth Nutrient Organic (stj-15771) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate

INSTILL-O (stj-12513) 1  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Safe Foods Corporation

Research & Development

Livestock Products: Acid Activators for Chlorine Dioxide

SAFE-pHix brand LpH 100 Activator & Adjuvant for Chlorine Dioxide, Biocide, Fungicide, Disinfectant, pH/ORP Adjuster (ath-7609) 1  
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

Crop Products: Boron Products

SaferGro® Biomin® Boron Mineral For Soil and Foliar Application (sli-2517) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Botanical Pesticides

SaferGro® Pest Out Broad Spectrum Miticide/Insecticide Controls Mites, Thrips and Aphids (sli-2512) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro Ant Out Botanical Insecticide Concentrate (sli-2513) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® Mildew Cure® Fungicide for Powdery Mildew Control (sli-2514) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® No Moss® Broad Spectrum Mossicide Controls Mosses and Liverworts (sli-2516) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro Mildew Cure Fungicide for Powdery Mildew Control Ready To Use (sli-3528) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro Ant Out Botanical Insecticide Ready To Use (sli-3530) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® Pest Out Ready To Use (sli-4911) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Calcium

SaferGro Biomin Calcium 1-0-0 Complexed Nutrient For Soil and Foliar Application (sli-2518)

## Crop Products: Copper Products

SaferGro Biomin Copper 1-0-0 Complexed Micronutrient For Soil And Foliar Application (sli-2519) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fertilizers, Blended with micronutrients

SaferGro Biomin Cal-Boro 1-0-0 Minerals For Soil and Foliar Application (sli-2511) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Fish Products, Liquid, Stabilized

SaferGro Aqua Power Organic Fish Fertilizer 5-1-1 (sli-3532) n

## Crop Products: Garlic

SaferGro Biorepel Natural Insect Repellent Concentrate (sli-2524) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro Biorepel Natural Insect Repellent Ready To Use (sli-3531) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Herbicides

SaferGro Weed Zap Non-selective Herbicide For Annual Grasses And Weeds Concentrate (sli-2530) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro Weed Zap Non-Selective Herbicide for Annual Grasses and Weeds Ready To Use (sli-3529) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Humic Acids – alkali extracted

SaferGro® Humax Humic Acid (sli-2525)

## Crop Products: Iron Products

SaferGro® Biomin® Iron Complexed Micronutrient For Soil and Foliar Application (sli-2520) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Magnesium Sulfate – Allowed With Restrictions

SaferGro Biomin Magnesium 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2521) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

## Crop Products: Magnesium Sulfate – Allowed With Restrictions, Micronutrients

SaferGro Promot MZM Organic Starter Fertilizer (sli-2529) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

## Crop Products: Manganese Products

SaferGro® Biomin® Manganese Complexed Micronutrient For Soil and Foliar Application (sli-2522) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Microbial Inoculants

SaferGro Mycormax™ Biological Inoculum Soil Amendment (sli-7291)

## Crop Products: Wetting Agents

SaferGro® Natural Wet Wetting Agent (sli-2527)

## Crop Products: Zinc Products

SaferGro® Biomin® Zinc Complexed Micronutrient For Soil and Foliar Application (sli-2523) 1

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Crop Products: Biopesticides

Grower's Ally Crop Defender 3 Miticide  
Insecticide Fungicide (sge-16939) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Grower's Ally Crop Defender 3 Miticide  
Insecticide Fungicide Concentrate (sge-  
16940) 1

For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

### Crop Products: Botanical Pesticides

Grower's Ally Spider Mite Control  
Concentrate (sge-12822) 1  
For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Grower's Ally Spider Mite Control (sge-  
12823) 1

For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Earth's Ally Insect Control For Organic  
Gardening (sge-12824) 1

For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Earth's Ally Insect Control for Organic  
Gardening Concentrate (sge-15329) 1

For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Earth's Ally 3-IN-1 Plant Spray For Organic  
Gardening Insecticide, Miticide & Fungicide  
Concentrate (sge-16768) 1

For use as a pest lure, repellent, or as part of  
a trap, or as a disease control. May be used  
for other pesticidal purposes if the  
requirements of 205.206(e) are met, which  
requires the use of preventive, mechanical,  
physical, and other pest, weed, and disease  
management practices.

Earth's Ally 3-IN-1 Plant Spray For Organic Gardening Insecticide, Miticide & Fungicide (sge-16769) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Fungicides

Grower's Ally Fungicide Concentrate (sge-13252) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Grower's Ally Fungicide (sge-13253) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Earth's Ally Disease Control for Organic Gardening (sge-13254) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Earth's Ally Disease Control For Organic Gardening Concentrate (sge-13255) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Earth's Ally Disease Control For Organic Lawn Care Concentrate Ready-To-Spray (sge-16770) 1

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

#### Crop Products: Ferric Phosphate

Natria Snail & Slug Killer Bait Ready-To-Use (sbm-10100) 1

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natria Garden Insect Killer Granules (sbm-14167) 1

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Microbial Products

Natria Disease Control Ready-To-Spray (sbm-12156) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natria Disease Control Ready-To-Use (sbm-12157) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Neem and Neem Derivatives

Natria Neem Oil Concentrate (sbm-10098) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natria Neem Oil Ready-To-Use (sbm-10099) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioAdvanced® Science-Based Solutions Organics Brand Neem Oil Ready-To-Use (sbm-16267) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Soap

Natria Insecticidal Soap Ready-To-Use (sbm-10097) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Bioadvanced® Science Based-Solutions Organics Brand Tomato Vegetable & Fruit Insect Control Ready-To-Use (sbm-16289) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

BIOADVANCED® SCIENCE-BASED SOLUTIONS ORGANICS BRAND WEED & GRASS KILLER READY-TO-USE (sbm-16327) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

**BIOADVANCED® SCIENCE-BASED  
SOLUTIONS ORGANICS BRAND  
INSECTICIDAL SOAP READY-TO-USE  
(sbm-16328) 1**

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

**Bioadvanced Science Based-Solutions  
Organics Brand Houseplant Insect Killer  
Ready-To-Use (sbm-16500) 1**

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

**Crop Products: Spinosad**

**Natria Ant Barrier Ready-to-Use (sbm-13512) 1**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Chlorine Dioxide

Selectrocide® 12G

Disinfectant/Sanitizer/Tuberculocide/Virucide\*/Fungicide/Algaecide/Slimicide/Deodorizer (smt-6719) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Selectrocide® 2L500

Disinfectant/Sanitizer/Virucide\*/Fungicide/Algaecide/Slimicide/Deodorizer (smt-6720) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

### Processing Products: Acidified Sodium Chlorite, Chlorine Dioxide

CIO2bber 100 Abridged

Disinfectant/Sanitizer/Virucide/Fungicide/Algaecide/Slimicide/Deodorizer (smt-5288) 1

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide A12 (smt-6541) 1

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide® A5 (smt-7602) 1

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Processing Products: Chlorine Dioxide

Selectrocide® 2L500

Disinfectant/Sanitizer/Virucide\*/Fungicide/Algaecide/Slimicide/Deodorizer (smt-2339) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. ### Crop Products: Coppers, fixed

SePRO Camelot O Fungicide/Bactericide  
Flowable Liquid Copper Fungicide (sep-2327) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

CuPRO 5000 Fungicide/Bactericide Dry  
Flowable (sep-8711) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Microbial Pesticides

SePRO Zio Fungicide (sep-7681) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Sodium Carbonate Peroxyhydrate

SePRO PAK 27 Algaecide (sep-5158) 1

Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Trichoderma spp.

Obtego Fungicide and Plant Symbiont (sep-12038) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Hypochlorous Acid

Nixall Disinfectant/Sanitizer (scv-16284) <sup>1</sup>  
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

### Livestock Products: Hypochlorous Acid

Nixall Disinfectant/Sanitizer Bactericide, and Tuberculocide (scv-16993) <sup>1</sup>  
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

### Processing Products: Hypochlorous Acid

Nixall Disinfectant/Sanitizer Bactericide, and Tuberculocide (scv-16992) <sup>1</sup>  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Crop Products: Chitin

Terra Healer Nematicida Fungicida (smr-11109) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

HEPTAXION Control de Patógenos Nematicida/ Fungicida (smr-14799) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Copper Sulfate

CuProtective Fungicida Bactericida (smr-11041) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FungiMixTOS Bio Fungicida Foliar Fungicida/ Bactericida (smr-14800) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Botanical Pesticides

ARMOREX Natural Nematicide, Fungicide, Insecticide, Miticide (stc-10956) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safe Control Aceites Vegetales (Producto No Comestible) (stc-15194) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fungicides

Permatrol Spray For Powdery Mildew Control (stc-8846) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Fungastop Broad Spectrum Antifungal Concentrate (stc-10651) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Bio-Folar Broad Spectrum Antifungal Concentrate (stc-11317) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Fungastop L&G Broad Spectrum Antifungal Concentrate (stc-11540) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

### Crop Products: Herbicides

Phydura Herbicide Concentrate (stc-7700) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SOILTECH ABLAZE Non-selective Weed And Grass Herbicide (stc-13994) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Processing Products: Chlorine Materials, Egg Wash – Allowed With Restrictions, Fruit and Vegetable Wash, post-harvest

Spartan SparCHLOR Chlorinated Sanitizer (spt-8905) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production. Refer to specific ingredient categories for applicable use restrictions. For use in post-harvest handling of raw agricultural commodities.

#### Processing Products: Detergents

Spartan Chlorinated Degreaser Foaming Chlorine-Based Degreaser (spt-14988) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

Spartan Chlorinated Plus (spt-14989) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

Spartan Inspector's Choice Foaming Grease Release Cleaner (spt-14990) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

Spartan High Performance Alkaline FP Low Foam, Free Rinsing Detergent (spt-14991) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

Spartan Fryer Cleaner FP Fryer Boil-Out Compound (spt-14992) 1  
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

#### Processing Products: Peracetic Acid/Peroxyacetic Acid

Spartan PAA Sanitizer (spt-11413) 1  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

#### Processing Products: Sodium Hydroxide

Eggs So Clean pH Booster (spt-8692) 1  
Must not be used in lye peeling of fruits and vegetables.

### Crop Products: Amino Acids

#### BioLife S80 Organic Nitrogen Fertilizer Based on Hydrolyzed Proteins, Amino Acids (scp-3868)

#### BioLife HN14 Organic Nitrogen 14-0-0 Organic Nitrogen Fertilizer Based on Hydrolyzed Proteins (scp-3869)

#### ArgiLife 72 - Organic Fertilizer Input Based on Hydrolyzed Proteins, Arginine Glutamine Peptides (scp-6474)

#### BioLife SN16 Organic Nitrogen 16-0-0 Organic Nitrogen Fertilizer Based on Hydrolyzed Proteins (scp-7852)

### Crop Products: Aquatic Plant Products, synthetically extracted

#### SeaGrow Seaweeds Based Organic Fertilizer (scp-3870)

### Crop Products: Calcium Chloride

#### ProVitaMins Ca 5-0-0 + 12 Ca (scp-8252) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

PeptoCal 2-0-0 + 8 Ca Hydrolyzed Proteins Based Liquid Organic Nitrogen Fertilizer with CALCIUM (scp-10445) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

ProVitaMins Ca 4-0-0 + 16 Ca Hydrolyzed Proteins Based Organic Fertilizer Input with Calcium (scp-10515) 1

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

#### Crop Products: Fertilizers, Blended

AminoSea 7-0-8 - Organic Nitrogen Fertilizer Input Based on Hydrolyzed Proteins, Seaweed Extracts (scp-6866)

#### Crop Products: Fertilizers, Blended with micronutrients

ProVitaMins B 4-0-0 + 8 B (scp-7667) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Cu 5-0-0 + 12 CU - Hydrolyzed Proteins, Amino Acids, Vitamin Based Organic Fertilizer Input With Copper (scp-7669) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Fe 5-0-0 + 12 Fe - Hydrolyzed Proteins, Amino Acids, Vitamin Based Organic Fertilizer Input With Iron (scp-7671) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Mn 5-0-0 + 12 Mn (scp-7675) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Zn 5-0-0 + 12Zn (scp-7677) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins MX 5-0-0 + TM Hydrolyzed Proteins, Amino Acids, Vitamin based organic fertilizer input with multi trace minerals (scp-8857) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

ProVitaMins Mg 3.5-0-0 + 8Mg - Hydrolyzed Proteins, Amino Acids, Vitamin Based Organic Fertilizer Input With Magnesium (scp-7673) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Crop Products: Adjuvants, for use in pesticides

VOGA Coadyuvante Agrícola/Líquido (sam-8168) 1  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

### Crop Products: Bacillus thuringiensis

Javelin WG Insecticida Biológico  
Insecticida/Granulos Dispersables (sam-7123) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fungicides

Soilgard 12G Fungicida Microbial  
Fungicida/granulos dispersables (sam-7125) 1  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

### Crop Products: Microbial Products

Tango Inoculante (SÓLIDO/POLVO) (sam-12713) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Neem and Neem Derivatives

Neemix 4.5 Insecticida Regulador del Crecimiento Insecticida/Concentrado Emulsionable (sam-7124) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Trilogy Insecticida Biológico Insecticida Acaricida Orgánico/Aceite Emulsificante (sam-7126) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Livestock Products: Prebiotics

ImmuOligo Liq ImmuOligo-O™ Liq (sub-7381) 1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

ImmuOligo ImmuOligo™ Powder (sub-7382)  
1

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

## Supercosecha Fertiorgánicos

Luz Maria Hernandez Beltran  
Fco. Javier Clavijero 5356  
Culiacan, Sinaloa 80130  
Mexico  
P: +526677167724

### Crop Products: Growth Regulators for Plants

SUPERCOSECHA SUPER-AMINOPLANT (spf-12943) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Soap

SUPERCOSECHA SUPER-DESTROYER INSECTICIDA DE ORIGEN BOTÁNICO (spf-13005) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Supercosecha Super Cinna-Neem Bactericida, Fungicida, Insecticida y Acaricida (spf-14166) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

### Processing Products: Chlorine Dioxide

Pure 100 Spray Disinfectant (plg-15433) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

### Crop Products: Botanical Pesticides

PIPER EC INSECTICIDA-ACARICIDA (taa-16650) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Sulfate

TMTAGRO Kupfer/AP Sulfato De Cobre AI 21% Fungicida y Bactericida Solución Acuosa (taa-13754) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Microbial Inoculants, Microbial Products

Bio Force Root (taa-15650)

### Crop Products: Soap

APN/OIL PLUS Botanical Repellent - Insecticide (taa-16614) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

**Processing Products: Acid Activators for Chlorine Dioxide**

TwinOxide 0.3% ClO<sub>2</sub> Solution Component B Sodium Bisulfate Powder Composition (gct-10872) 1  
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b).

**Processing Products: Chlorine Dioxide**

TwinOxide 0.3% ClO<sub>2</sub> Solution Component A Sodium Chlorite Powder Composition (gct-10801) 1  
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Crop Products: Iron Products**

TwinsBridge Int'l Ferrous Sulfate Monohydrate Powder (twn-16633) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Magnesium Sulfate – Allowed With Restrictions**

TwinsBridge Int'l Magnesium Sulfate Heptahydrate (twn-6549) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

**Crop Products: Manganese Products**

Manganese Sulfate Monohydrate Powder (twn-11329) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Zinc Products**

TwinsBridge Int'l Zinc Sulfate Monohydrate Fertilizer Grade (twn-11419) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

**Livestock Products: Copper Sulfate**

TwinsBridge Int'l Copper Sulfate Pentahydrate Feed Grade (twn-16125) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

**Livestock Products: Iron Sulfate**

TwinsBridge Int'l Feed Grade Ferrous Sulfate Monohydrate Powder (twn-16634) 1  
For use as a source of iron and sulfur. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

**Livestock Products: Magnesium**

TwinsBridge Int'l Magnesium Oxide For Further Manufacturing of Feed (twn-7772) 1  
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

**Livestock Products: Magnesium Sulfate**

TwinsBridge Int'l Magnesium Sulfate Heptahydrate For Further Manufacturing of Feed (twn-6550) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

**Livestock Products: Manganese**

Manganese Sulfate Monohydrate Powder (twn-11330) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

**Livestock Products: Zinc Sulfate**

TwinsBridge Int'l Zinc Sulfate Monohydrate For Further Manufacturing of Feed (twn-11420) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

### Crop Products: Botanical Pesticides

BIODI® argemonina, berberina, ricinina y  $\alpha$ -terthienil Insecticida Y/O Acaricida Botánico / Extracto Acouso (uqa-2974) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Naturacide argemonina, berberina, ricinina y  $\alpha$ -terthienil Insecticida Y/O Acaricida Botánico / Extracto Acouso (uqa-3462) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

StarAgricola® argemonina, berberina, ricina y  $\alpha$ -terthienyl INSECTICIDA y/o ACARICIDA BOTANICO / EXTRACTO ACUOSO (uqa-3463) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIODI® argemonina, berberina, ricinina y  $\alpha$ -terthienil Insecticida Y/O Acaricida Botánico / Extracto Acouso (uqa-3464) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRANIC® CinnAcar extracto de canela INSECTICIDA y/o ACARICIDA / EMULSION ACEITE EN AGUA. (uqa-4598) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRANIC® Mega extracto de gobernadora (Larrea tridentata) FUNGICIDA y/o BACTERICIDA BOTANICO / LIQUIDO SOLUBLE (uqa-4599) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**PROGRANIC® NeemAcar CE** extracto de neem + extracto de canela INSECTICIDA y/o ACARICIDA BOTANICO / CONCENTRADO EMULSIONABLE (uqa-4600) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CYR® Canela** extracto de Canela INSECTICIDA y/o ACARICIDA / EMULSIÓN ACEITE EN AGUA (uqa-5148) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CYR® Cinna-Neem CE** extracto de neem + extracto de canela INSECTICIDA y/o ACARICIDA BOTANICO / CONCENTRADO EMULSIONABLE (uqa-5149) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CYR® Mega** extracto de gobernadora (Larrea tridentata) FUNGICIDA y/o BACTERICIDA BOTÁNICO/LÍQUIDO SOLUBLE (uqa-5150) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**PROGRANIC® Omega** extracto de chicalote (Argemone mexicana) Insecticida y Acaricida Botánico/Concentrado Emulsionable (uqa-7615) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**PROGRANIC® Piretro** extracto de tagetes (Tagetes spp.) INSECTICIDA BOTANICO / CONCENTRADO EMULSIONABLE (uqa-7616) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**BioPow® argemonina, berberina, ricinina y a-terthienil** INSECTICIDA y/o ACARICIDA BOTANICO/ EXTRACTO ACUOSO (uqa-8771) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CYR® Omega** extracto de chicalote (Argemone mexicana) INSECTICIDA y ACARICIDA BOTANICO / CONCENTRADO EMULSIONABLE (uqa-8772) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CYR® Piretrinas** extracto de tagetes (Tagetes spp.) INSECTICIDA BOTANICO / CONCENTRADO EMULSIONABLE (uqa-8773) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Progranico® LarreaT®** extracto de gobernadora (Larrea tridentata) FUNGICIDA y/o BACTERICIDA BOTANICO / LIQUIDO SOLUBLE (uqa-8774) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Progranico® Tagetes®** extracto de tagetes (Tagetes spp.) INSECTICIDA BOTANICO / CONCENTRADO EMULSIONABLE (uqa-8776) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Progreen® Acar®** extracto de canela INSECTICIDA y/o ACARICIDA / EMULSION ACEITE EN AGUA (uqa-11775) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ULTRACHEM® Mega** extracto de gobernadora (Larrea tridentata) FUNGICIDA y BACTERICIDA BOTANICO / LIQUIDO SOLUBLE (uqa-12970) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**DISAGRO SUPRALID** INSECTICIDA BIOQUÍMICO – Alcaloide, Alquilsulfato Argemonina, Berberina, Ricinina, α-Terthienil (uqa-14006) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**BioProtector** argemonina, berberina, ricinina y α-terthienil INSECTICIDA y/o ACARICIDA BOTANICO / EXTRACTO ACUOSO (uqa-14143) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Caneema 70 EC** Insecticida - Acaricida - Botánico Extracto de Neem + Extracto de Canela (uqa-15447) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Extragober 95 SL** Fungicida - Bactericida - Botánico Extracto de Gobernadora (uqa-15448) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Piretage 90 EC** Insecticida-Botánico Extracto de Tagetes (uqa-15449) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Progranico® alfa** extracto de ajo Insecticida Botánico / Concentrado Soluble (uqa-15972) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**NATURICIDE PIRETRO** extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-15986) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**STAR** argemonina, berberina, ricina y  $\alpha$ -terthienyl Insecticida y/o Acaricida Botánico / Extracto Acuoso (uqa-16059) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CinnAcar Cinnamon Extract INSECTICIDE & MITICIDE / OIL IN WATER EMULSION** (uqa-16761) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Garlic LS PROGRANIC** extracto de ajo INSECTICIDA BOTANICO / CONCENTRADO SOLUBLE (uqa-17306) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Neem and Neem Derivatives

**PROGRANIC® Nimicide 80** extracto de aceite de neem INSECTICIDA Y ACARICIDA / CONCENTRADO EMULSIONABLE (uqa-2975) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**CYR Neem CE 80** extracto de aceite de neem INSECTICIDA y ACARICIDA / CONCENTRADO EMULSIONABLE (uqa-3465) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Naturacide Neem CE 80** extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-3466) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Potassium Bicarbonate

**PROGRANIC Mix-Top Bicarbonato de potasio FUNGICIDA / POLVO SOLUBLE** (uqa-16762) 1

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Soap

**Ultralux S** sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-7617) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

**CYR® PotasyMax** sales potásicas de ácidos grasos INSECTICIDA y ACARICIDA / CONCENTRADO SOLUBLE (uqa-10485) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

**DIE SOAP K** Sales potásicas de ácidos grasos INSECTICIDA y ACARICIDA / CONCENTRADO SOLUBLE (uqa-11776) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Processing Products: Botanical Pesticides

**Eco Urban** argemonina + berberina + ricinina +  $\alpha$ -terthienil Insecticida / Extracto Acuoso (uqa-13220) 1

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

## Crop Products: Copper Sulfate, Potassium Bicarbonate, Potassium Silicate, aqueous

Blue Cure (una-13189) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bactur 2X Insecticida Larvicide Para El Control De Lepidopteros (abb-2670) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bazthu • 32 Insecticida larvicide para el control de lepidópteros. Polvo mojado (WP) (abb-2679) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioBit 32 Insecticida Granulado Dispersable en Agua (WG) (abb-2680) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Geoda Insecticida Larvicide Para El Control De Lepidópteros Polvo Mojable (WP) (abb-2681) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FlorBac® WG Bioinsecticida Granulado Dispersable en Agua (abb-2706) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aztron WDG Biological Insecticide (abb-2707) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dipel 6.4 WG Bioinsecticide (abb-3417) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel 10G Biological Insecticide Granule (abb-3723) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel 54WG Agente de Control Biológico Microbiano Insecticida Agrícola Gránulo dispersable en agua (WG) (abb-3755) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac GR Biological Larvicide Granules (abb-8250) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bactimos WG Bacterial Larvicide (abb-11512) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel WG Insecticida Granulado Dispersable (WG) (abb-11955) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**DiPel DF Insecticida Biológico / Floable Seco** (abb-13306) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**DiPel 2X Insecticida Biológico Polvo Mojable (P.M.)** (abb-13366) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**XenTari DF Insecticida Biológico/Floable Seco** (abb-13537) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**XenTari Microbial Pesticide** (abb-13917) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**VectoBac WG Biological Larvicide Water Dispersible Granule** (abb-13979) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**DiPel DF Biological Insecticide Water Dispersible Granule** (abb-15778) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Florbac WG Biological Insecticide Water Dispersible Granule** (abb-15779) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Biopesticides

**DiTera® DF Biological Nematicide Dry Flowable** (abb-3077) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**VectoMax FG Biological Larvicide Fine Granule** (abb-8251) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**DiTera DF Nematicida Biológico / Floable Seco** (abb-13307) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Gibberellic Acid

**ProVide® 10 SG Plant Growth Regulator Soluble Granule** (abb-5058) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Valent BioSciences ProGibb® Gibberellic Acid Water Soluble Powder Plant Growth Regulator** (abb-0315) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProGibb® 40% Plant Growth Regulator Water Soluble Granule** (abb-9526) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**RyzUp® Plant Growth Regulator Soluble Concentrate (SL)** (abb-9871) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Release® LC Plant Growth Regulator Solution** (abb-3139) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Release® Plant Growth Regulator Soluble Powder** (abb-3140) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**RYZUP® 40 SG Regulador De Crecimiento Granulos Solubles (SG)** (abb-0649) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Valent BioSciences Activol® 40% GS Regulador De Crecimiento Vegetal (Tipo 1) Granulado soluble** (abb-2540) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProGibb® Plus Regulador de Crecimiento Polvo Soluble - SP** (abb-2882) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProGibb® TVO Plant Growth Regulator Solution** (abb-10174) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProGibb 10SP Plant Growth Regulator Soluble Powder** (abb-11552) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProGibb 40% GS Regulador De Crecimiento Vegetal (Tipo 1) Granulado Soluble** (abb-13308) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProVide 10SG Regulador De Crecimiento (Tipo 1) Granulos** (abb-13356) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Growth Regulators for Plants

**RyzUp SmartGrass® Plant Growth Regulator Water Soluble Granule** (abb-1880) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProTone® SG Plant Growth Regulator Soluble Granule** (abb-2103) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ProGibb LV PLUS Plant Growth Regulator Solution** (abb-5392) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**ConTego SL Plant Growth Regulator Soluble Liquid** (abb-5520) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Gibberellic Acid (GA3) Technical Powder Plant Growth Regulator (abb-5906) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VBC-30396 Plant Growth Regulator Water Soluble Granule (abb-6114) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aviglycine Technical Concentrate Plant Growth Regulator (abb-7320) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ExCelero Regulador de Crecimiento de Plantas de Uso Agrícola Granulos Solubles (SG) (abb-8605) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ReTain OL Plant Growth Regulator Liquid Concentrate (abb-11800) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProTone SG Regulador De Crecimiento Vegetal (Tipo 1) Solido (abb-13309) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb LV PLUS T&O Plant Growth Regulator Solution (abb-14410) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ConShape SL Plant Growth Regulator Soluble Liquid For Use On Christmas Trees (abb-15539) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Microbial Products

DiPel® 2X DF Biological Insecticide Dry Flowable (abb-1490) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

#### Crop Products: Coppers, fixed

Valterra + Burah Fungicida Orgánico (vfs-16874) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

#### Crop Products: Pyrethrum, Soap

Valterra + Rhino Insecticida Orgánico (vfs-16875) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Crop Products: Iron Products

Ferrous Sulfate Heptahydrate (vpl-13106) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

#### Crop Products: Zinc Products

Zinc Sulfate Monohydrate Powder (vpl-13411) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

#### Livestock Products: Ferrous Sulfate

Ferrous Sulfate Heptahydrate (vpl-13107) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

#### Livestock Products: Zinc Sulfate

Zinc Sulfate Monohydrate Powder (vpl-13413) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.  
Zinc Sulfate Monohydrate Granular (vpl-14025) 1  
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

## Crop Products: Calcium Chloride

Cal-Plex 12 A Liquid Calcium Concentrate (vls-4992) 1  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.  
Verdesian Polyamine Calcium Organic (vls-4996) 1  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

## Crop Products: Fertilizers, Blended with micronutrients, Fertilizers, Blended with synthetic magnesium sulfate

Intracept O (vls-4994) 1  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Iron Products

### QC Diamond Brand Coarse Granular

Ferrous Sulfate Monohydrate (vls-9694) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### QC Diamond Brand Ferrous Sulfate

Heptahydrate (No Anti-Caking) (vls-9695) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### QC Diamond Brand Ferrous Sulfate Heptahydrate (With Anti-Caking) (vls-9697) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### QC Diamond Brand Ferrous Sulfate Heptahydrate Solu-Grade (Without Anti-Caking) (vls-9698) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### QC Diamond Brand Fine Granular Ferrous Sulfate Monohydrate (vls-9699) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### QC Diamond Brand Standard Ferrous Sulfate Monohydrate (vls-9700) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

## Crop Products: Magnesium Sulfate – Allowed With Restrictions

### Verdesian Polyamine Magnesium Organic (vls-4999) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

## Crop Products: Magnesium Sulfate – Allowed With Restrictions, Micronutrients

Polyamine Micro-Pak Organic (vls-5047) 1  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

## Crop Products: Microbial Inoculants

Verdesian Guard-N Seed Inoculant for Soybean, Pea, Vetch, Lentil, Dry Bean and Peanut Varieties (vls-6708)

Verdesian N-Dure Premium Non-Sterile Peat Inoculant for Alfalfa (vls-6709)

Verdesian N-Dure Premium Non-Sterile Peat Inoculant for Pea, Vetch and Lentil (vls-6712)

Verdesian N-Dure Premium Non-Sterile Peat Inoculant for Peanut and Cowpea, Lespedeza, Mung Bean (vls-6713)

Verdesian N-Dure Premium Non-Sterile Peat Inoculant for Soybean (vls-6714)

Verdesian N-Dure A Premium Non-Sterile Peat Inoculant for True Clover (vls-6715)

Verdesian Pre-Vail For Alfalfa and Sweet Clover (vls-6716)

Verdesian Pre-Vail For True Clover (vls-6718)

## Crop Products: Microbial Products

N-Dure A Verdesian NUE Solution A Premium Non-Sterile Peat Inoculant for Garbanzo/Chickpea (vls-6711)

## Crop Products: Micronutrients

Verdesian Polyamine Copper Organic (vls-4997) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Verdesian Polyamine Iron Organic (vls-4998) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Verdesian Polyamine Manganese Organic (vls-5000) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Verdesian Polyamine Zinc Organic (vls-5069) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Botanical Pesticides

Sifatec Fenoxon Extracto de neem y extracto de canela 650 CE Insecticida/Concentrado Emulsionable (via-14797) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sifatec Krox Sophora flavescens 10 CL Insecticida/Concentrado Líquido (via-14803) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VITACULTIVOS® FLEHAZO® Extracto de neem y extracto de canela 650 CE Insecticida/Concentrado Emulsionable (via-16119) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VITACULTIVOS® HEADER® Sophora flavescens 10 CL Insecticida/Concentrado Líquido (via-16121) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Copper Sulfate

Sifatec Pentahcu Sulfato de Cobre Pentahidratado 65 SC Fungicida/Suspensión Concentrada (via-14804) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SELECOP 65 SC Syngenta Sulfato de cobre pentahidratado Fungicida/Bactericida/Suspensión Concentrada (via-15947) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VITACULTIVOS® COP FIVE 65 SC SULFATO DE COBRE PENTAHIDRATADO FUNGICIDA-BACTERICIDA / SUSPENSIÓN CONCENTRADA (via-15948) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Coppers, fixed

Natural Guard Brand by ferti•lome Copper Soap Fungicide Concentrate (vpg-8911) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Natural Guard Brand by ferti•lome Copper Soap Fungicide Ready to Use (vpg-8912) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

### Crop Products: Ferric Phosphate

Natural Guard Brand by ferti•lome Bug, Slug & Snail Bait (vpg-8910) 1  
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural Guard Brand by ferti•lome Slug & Snail Bait (vpg-8913) 1  
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Neem and Neem Derivatives

ferti•lome Triple Action Insecticide•Fungicide•Miticide (vpg-8387) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural Guard Brand by ferti•lome Neem (vpg-11972) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Soap

Natural Guard Brand by ferti•lome Spinosad Soap Ready to Use (vpg-8914) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Natural Guard Brand by ferti•lome Spinosad Soap Concentrate (vpg-11973) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Natural Guard Brand by ferti•lome Spinosad Soap Ready to Spray (vpg-11974) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Natural Guard Brand by Ferti-lome Grass & Weed Killer Non-Selective (vpg-12731) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

### Crop Products: Spinosad

Natural Guard Brand by ferti•lome Spinosad Bagworm, Tent Caterpillar and Chewing Insect Control (vpg-7256) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural Guard Brand by ferti•lome Spinosad Ready to Spray (vpg-8915) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Microbial Pesticides

Holeshot Vyota Biotech (vba-13460) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nefrit Vyota Biotech (vba-13461) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Subtek Vyota Biotech (vba-13462) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Microbial Products

Symbiosis Vyota Biotech (vba-14502) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Peracetic Acid/Peroxyacetic Acid

Re-Boot Vyota Biotech (vba-14643) 1  
For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

## Crop Products: Trichoderma spp.

Tritanium Vyota Biotech (vba-16824) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Bacillus thuringiensis

Neudorff BtON Bioinsecticide Bait (neu-16613) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Coppers, fixed

Cueva Fungicide Ready-To-Use Flowable Liquid Copper Fungicide (neu-3101) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cueva 2.4 Copper Soap Flowable Liquid Copper Fungicide (neu-3989) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cueva Fungicide Concentrate Flowable Liquid Copper Fungicide (neu-11228) 1  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

## Crop Products: Ferric Phosphate

Sluggo® Slug & Snail Bait (neu-0583) 1  
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bug-N-Sluggo Insect, Slug and Snail Bait (neu-2578) 1  
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sluggo Maxx Brand (neu-10015) 1  
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Antixx Plus (neu-10677) 1  
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Herbicides

HomePlate Non-Selective Herbicide (neu-6439) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fireworxx (neu-11344) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Homeplate RTU (neu-12678) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Oils

Vegol Insecticidal Oil (neu-3007) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Pyrethrum

Pyrol-O RTU (neu-3589) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O (neu-3590) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O Insecticide/Miticide (neu-10817) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aerosol Pyrol-O RTU (neu-15979) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Soap

Neudorff's Insecticidal Soap Concentrate (neu-4182) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Neudorff's Insecticidal Soap RTU (neu-0074) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### KOPA Insecticidal Soap (neu-0806) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Neudosan Insecticidal Soap Ready-to-Use (neu-0807) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Neudorff H01 Concentrate Herbicidal Soap (neu-2487) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Finalsan Ready-to-Use Herbicidal Soap (neu-2488) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Finalsan Concentrate Grass and Weed Killer (neu-2489) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Moss-Aside Moss Killer (neu-2602) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### NEU1138I Concentrate (neu-5281) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### NEU1138I Ready-to-Use (neu-5282) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Crop Products: Spinosad

##### Neudorff Bug Bait (neu-1123) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

##### Neudorff Bug Bait Residential (neu-13266) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Humic Acids – alkali extracted

ENHANCE® THA 12% ORGANIC HUMIC  
ACIDS Liquid Concentrate (wnc-8040)

ENHANCE® THA 6% ORGANIC HUMIC  
ACIDS Liquid Concentrate (wnc-9611)

### Crop Products: Iron Products

Nutraplex® 5% Iron (wnc-3222) 1  
Must not be used as an herbicide, defoliant  
or desiccant. Micronutrient deficiency must  
be documented by soil or tissue testing or  
other documented and verifiable method as  
approved by a certifying agent.

### Crop Products: Magnesium Sulfate – Allowed With Restrictions

Nutraplex® 4% Magnesium (wnc-3223) 1  
May be used as a plant or soil amendment if  
soil deficiency of magnesium is documented  
by testing.

### Crop Products: Manganese Products

Nutraplex® 5% Manganese with Sulfur (wnc-3251) 1  
Must not be used as an herbicide, defoliant  
or desiccant. Micronutrient deficiency must  
be documented by soil or tissue testing or  
other documented and verifiable method as  
approved by a certifying agent.

## Crop Products: Zinc Products

Nutraplex® 10% Zinc with Sulfur (wnc-6008)  
1  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.

ORGANO MIX ZINC 7.5% 2.5-0-0 (wnc-16844) 1  
Micronutrient deficiency must be  
documented by soil or tissue testing or other  
documented and verifiable method as  
approved by a certifying agent. Must not be  
used as an herbicide, defoliant or desiccant.

Mora-Leaf® Calcium (wec-9517) 1  
For use as a foliar spray to treat a  
physiological disorder associated with  
calcium uptake.

BenVireo Calcium (wec-12057) 1  
For use as a foliar spray to treat a  
physiological disorder associated with  
calcium uptake.

## Crop Products: Calcium Chloride, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions

ProNatural Calcium Plus 1-0-0 (wec-7969) 1  
For use as a foliar spray to treat a  
physiological disorder associated with  
calcium uptake. Refer to specific ingredient  
categories for applicable use restrictions.

## Crop Products: Coppers, fixed, Elemental Sulfur

Actives Fungicide Wil-Dry (wec-8819) 1  
For plant disease control. May only be used  
if the requirements of 205.206(e) are met,  
which requires the use of preventive,  
mechanical, physical, and other pest, weed,  
and disease management practices. Must  
be used in a manner that minimizes copper  
accumulation in the soil. For use as plant  
disease control, or as an insecticide  
(including acaricide or mite control). For use  
as slug and snail bait. May only be used if  
the requirements of 205.206(e) are met,  
which requires the use of preventive,  
mechanical, physical, and other pest, weed,  
and disease management practices.

## Crop Products: Crab/Crustacean Meal

Lighthouse Crab Shell Soil Amendment  
(wec-12209)

### Crop Products: Elemental Sulfur

Wilbur-Ellis SOIL SULFUR GRANULAR (wec-2022)

Wilbur-Ellis SOIL SULFUR FINE GRIND (wec-2023)

Wilbur-Ellis Ben-Sul 85 (wec-4045) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Special Electric® Refined Super-Adhesive Dusting Sulfur (wec-1478) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Wilbur-Ellis Dusting Sulfur (wec-1479) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Golden Micronized Sulfur (FUNGICIDE AND INSECTICIDE) (wec-2773) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sulfur Dry Flowable Fungicide - Miticide Micronized Wettable Sulfur WDG (Water Dispersable Granule) (wec-11466) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Feather Meal

### Crop Products: Fertilizers, Blended

BenVireo DiverSententials 4-3-4 Dry Pelleted Fertilizer (wec-14086)

### Crop Products: Fertilizers, Blended with micronutrients

ProNatural Iron Plus 1-0-0 (wec-7971) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProNatural Manganese Plus 1-0-0 (wec-7973) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

BenVireo Manganese (wec-12059) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

BenVireo Iron (wec-12061) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fertilizers, Blended with micronutrients, Fertilizers, Blended with synthetic magnesium sulfate

ProNatural Photo Max Plus (wec-7974) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fertilizers, Blended with micronutrients, Zinc Products

Foli-Gro Zinc 10% (wec-7968) 1

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

### Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

ProNatural Magnesium Plus 1-0-0 (wec-7972) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

BenVireo Magnesium (wec-12058) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Crop Products: Fertilizers, Blended with synthetic magnesium sulfate, Micronutrients

BenVireo Multus (wec-12062) 1

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Fertilizers, with high ammoniacal nitrogen

BenVireo TerraPreme 8-0-0 (wec-15197) n1

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

### Crop Products: Fish Meal and Powder

Puric WSG 0-0-12 (wec-12999)

### Crop Products: Manure Tea

Fluid Compost (wec-7967) 1

May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

### Crop Products: Microbial Products

Nutrio Unlock (wec-12442)

### Crop Products: Oils, Horticultural

440 Superior Spray Oil (wec-8719) 1  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Shellfish Meal

Lighthouse Shrimp Shell Soil Amendment (wec-12213)

### Crop Products: Zinc Products

Foli-Gro® Zinc 7% (wec-0467) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

ProNatural Zinc Plus 1-0-0 (wec-7975) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

BenVireo Zinc (wec-12060) 1  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Soap

Safer's® Insecticide Soap Commercial Concentrate (wdc-0080) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer's Insecticidal Soap Ready-To-Use (wdc-0081) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer's Rose & Flower Insecticide Ready-to-Use (wdc-0082) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer's® Tomato & Vegetable Insecticide Ready To Use (wdc-1073) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Bacillus thuringiensis

Safer® Brand Caterpillar Killer for Trees, Shrubs & Vegetables Concentrate II (wsc-4526) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Diatomaceous Earth

Safer® Brand Ant & Crawling Insect Killer (wsc-9849) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur

Safer® Brand Garden Fungicide II (wsc-3155) 1

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Elemental Sulfur, Soap

Safer® Brand 3- in-1 Concentrate II (wsc-4180) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand 3-in-1 Garden Spray II (wsc-4181) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Rose & Flower 3-in-1 Garden Spray II (wsc-11286) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Tomato & Vegetable 3-in-1 Garden Spray (wsc-11287) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Fertilizers, Blended

Safer Brand Azalea & Holly Restore 4-3-3 (wsc-13023)

Safer Brand Garden Restore All Purpose Granular Garden Fertilizer 5-3-3 (wsc-13024)

Safer Brand Rose & Flower Restore 3-4-3 (wsc-13025)

Safer Brand Tomato & Vegetable Restore 3-4-4 (wsc-13026)

## Crop Products: Neem and Neem Derivatives

Safer Brand Neem Oil RTU Fungicide / Miticide / Insecticide (wsc-8420) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Oils, Horticultural

Safer Brand Horticultural & Dormant Spray Oil (wsc-9669) 1

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Pyrethrum, Soap

Safer® Brand Tomato & Vegetable Insect Killer II (wsc-4089) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Repellents – Allowed With Restrictions

Havahart® Critter Ridder® (wsc-4215) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Critter Ridder® Ready-To-Use (wsc-0279) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Animal Repellent (wsc-12345) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Deer & Rabbit Repellent Ready-To-Use (wsc-12346) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Animal Repellent Ready-To-Use (wsc-12400) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## Crop Products: Soap

Safer® Brand Insect Killing Soap with Seaweed Extract II (wsc-9909) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Insect Killing Soap Concentrate II (wsc-9786) 1

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready-To-Spray II (wsc-9789) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready-To-Use II (wsc-9790) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand End All® Insect Killer (wsc-1484) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand #567 Pyrethrin & Insecticidal Soap Concentrate II (wsc-1899) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

#### Livestock Products: Diatomaceous Earth

Safer® Brand Food Grade Diatomaceous Earth (wsc-12126) 1  
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

#### Processing Products: Diatomaceous Earth

Safer Brand Ant & Crawling Insect Killer Made From Diatomaceous Earth (wsc-5552) 1  
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Safer Brand Home Ant & Crawling Insect Killer Made From Diatomaceous Earth (wsc-16275) 1  
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

### Crop Products: Amino Acids

AMINOVA 65 Fertilizante Orgánico / Polvo  
(zar-4368)

### Crop Products: Bacillus thuringiensis

Larvizar Insecticida Biológico/Polvo (zar-10656) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Botanical Pesticides

Aranova Insecticida Orgánico Líquido Emulsionable (zar-5166) 1  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Derribe Total Insecticida/Líquido Emulsionable (zar-5168) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Spidnova Insecticida Orgánico Líquido Emulsionable (zar-5170) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MIXXERT Insecticida Orgánico Líquido Emulsionable (zar-6112) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VITANEEM Insecticida Orgánico Líquido Emulsionable (zar-6113) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Clean Crop LT bactericida - fungicida organico / Solución Acousa (zar-10653) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Fertilizers and Soil Amendments, Blended

Bioactive Organic Mejorador de Suelo Orgánico Fertilizante Orgánico/Líquido (zar-5167)

### Crop Products: Growth Regulators for Plants

RazorMax Estimulante de Raíz Orgánico Fertilizante Orgánico/Polvo (zar-5169) 1  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Humic Acids – alkali extracted

Huminova Fertilizante Orgánico / Polvo (zar-4370)

### Crop Products: Microbial Inoculants

FijabiolK Fijador de Potasio Fertilizante Biológico / Líquido (zar-8830)

#### Crop Products: Hypochlorous Acid

Agvibac-500 Desinfectante (zur-16389) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

#### Processing Products: Hypochlorous Acid

ZurichVet Saludy (zur-14317) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.
