

ITALPOLLINA
HELLO NATURE!

EFFECTIVE. EFFICIENT. GENUINELY VEGETAL.

TRAINER is an innovative biostimulant for foliar application. It acts energetically on plant development, helping also the overcoming of climatic stress situations thanks to the combined presence of organic nitrogen and peptides of 100% vegetal origin. TRAINER is rapidly absorbed by leaves and translocated in plant tissues, so that within few hours, it can perform its positive actions.

ANTISTRESS: it helps the plant during any kind of stress (excessive heat and cold, drought, low light etc.).

BIOSTIMULANT: it improves plant growth and supports it during the most delicate phases (formation and fruit enlargement, vegetative growth etc.).

NUTRITIONAL: it is the ideal complement to the traditional fertilization to achieve high yield and quality results.

COMPOSITION

Organic nitrogen (N)	5 %
Organic carbon (C)	19 %
Vegetal peptides	31 %
pH	4
Specific weight	1,21 kg/L

THE ADVANTAGES

- Support the growth development
- Better tolerance to abiotic stresses
- Optimization of nutrition and photosynthesis
- Increase of yield and quality
- Better absorption of nutritional elements
- Optimization of the fruit set rate
- Improve of fruits caliber and homogeneity

TRAINER is powered by **LISIVEG**, an exclusive production system designed by the R&D of Italtollina, based on the **enzymatic hydrolysis of vegetal proteins**. It allows to obtain **PEPTIDES** that, unlike individual free amino acids, have a more prominent, assured and **natural biostimulant effect**. **LISIVEG®** lies its strength in the innovative treatment technology that **preserves even the weakest components** (as Tryptophan) and maintains its activity unaltered.

USE & DOSE

All dosages provided are in standard conditions, dosages and modes of application are to be determined on the basis of the requirements and the nutritional status of the crop.

We recommend the application in the coolest hours of the day (morning or evening) to obtain maximum absorption by the plant.

TRAINER can be mixed with the most common phytosanitary products and fertilizers on the market. Before using we recommend testing on a small surface for compatibility with other products.

Liquid fertilizer for foliar application.

For all crops excluding industrial crops in function of the objective:

CROPS	GROWTH OF THE PLANT		FRUIT DEVELOPMENT AND QUALITY		STRESS	
	dosage per ha	dosage per hL	dosage per ha	dosage per hL	dosage per ha	dosage per hL
Vegetables, orchards, soft fruits, vineyards, kiwi	3 - 5 L	300-500 mL	3 - 5 L	300-500 mL	2 L	200 mL
Pineapple	5 L	500 mL	3 - 5 L	300-500 mL	2 L	200 mL
Bananas	5 L	500 mL	3 - 5 L	300-500 mL	2 L	200 mL
Horticulture	3 L	300 mL			2 L	200 mL
Nursery		300 mL				200 mL
Sugar canes	3 L	300 mL	3 L	300 mL	2 L	200 mL
Turf, ornamentals	5 L	500 mL			2 L	200 mL

For industrial crops:

Crops	Dose	Stage
Wheat	3 L/ha	Tillage
	1,5 L/ha/application	Mixed with UAN
Corn	4 L/ha	From flag stage to heading
	3 L/ha	4-6 leaves
Rape	3 L/ha	After winter
	3 - 4 L/ha	Flowering
Sunflower	3 L/ha	4-6 leaves
Sugarbeet	5 L/ha	7-8 leaves

TRAINER

PACKAGING

1 - 5 - 20 L and 1200kg IBC

Suitable for organic farming according to EC REG. 834/2007
